## KEEP OUT OF REACH OF CHILDREN DANGER

## PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye demage. Causes skin demage, This product may cause allergic skin reactions. Do not get in eyes, on skin, or on clothing. Weer goggles or face shield and rubber gloves when handling. Harmful or fatal if swellowed.

FIRST AID: If in eyes, flush with plenty of water. Get medical attention. If on skin, wash with plenty of scep and water. Get medical attention. If swallowed, drink promptly a large quantity of milk, egg whites, galatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Get medical attention.

Note to physicien: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not use in offshore or estuarine drilling operations. Do not discharge into lekes, streams, ponds, or public waters unless in accordance with a NPDES Permit. For guidance, contact the regional office of the Environmental Protection Agency.

P"YSICAL AND CHEMICAL HAZARDS: Do not use or store neer heet or open flame.

## STORAGE & DISPOSAL

Do not contaminate water, food, or faad by storage or disposal.

STORAGE: Do not express to extreme temperatures. Do not stack more than five drums high. Drums should be opened in evel-ventilated areas. Leaking or damaged drums should be placed in overpack drums for disposel. Spile should be absorbed in sawdust or send and disposed of in a senitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide-waster are scutely hiszardous, improper disposal of excess pasticide, spray thickets, or riveste is a violation of Federal Law. If these wastes cannot be disposed of by use according to lebel instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at your EPA Regional Office for guidence.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a senitary landfill, or by other procedures approved by state and local authorities.

	ECTIONS FOR U
IT IS A VIOLATION OF FEDERAL LA	W TO USE THIS PRODUC
WITH ITS LABELING. Technical and	istance in applyingT-
microorganism control as described in	the following is evellable us
problem le provided.	-
COOLING TOWERS:	
wood against soft or surface rot and h	Hernel or dry rot. It is applie
containing 3.0 to 4.2%	
surfaces. The amount applied should	provide 3.6 to 4.8 lb $\_\_\underline{\mathbb{T}}$ =
per 1007 (*) of wood surface. Soft o	r gurigee rot ean also be i
T-5-4	to the recirculating coo
well. The dosage should provide 7.5	<b>b</b> of
water and the bleedoff should be stop	ped for 4 to 6 hr after treet
repeated every four months. COOLING WATER: T-5-4	
COOLING WATER: 1-3-4
