Ms. Crystal W. Brown
Buckman Laboratories
1256 North McLean Blvd.
Memphis, TN 38108-1241

Subject: Busan 1366
EPA Registration Number 1448-394
Application Date: 4/1/04
Receipt Date: 4/5/04

Dear Ms. Brown:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- To replace the "If Ingested" statement with "If Swallowed".
- To move the Ingredients Statement beneath the Product name.
- To correct the product name under "Directions for Use".

Conditions

1. Delete the (s) on the word "Ingredients" in the Ingredient Statement.
2. In the "Ingredient" Statement delete "(0.64 lbs. active ingredient/gallon)".

General Comments

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact Delores Williams at (703) 308-6372.

Sincerely,

Emily H. Mitchell

BUSAN 1366

BUSAN is a registered trademark.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SAPSTAIN AND MOLD CONTROL:

BUSAN 1366 is used to control sapstain and mold in freshly cut hardwood and softwood lumber, logs, poles, posts and timbers. BUSAN 1366 is applied by dipping or spraying the wood until complete surface wetting is achieved. For bulk dip tanks BUSAN 1366 is diluted by using 0.5 gallons to 2.0 gallons BUSAN 1366 per 100 gallons of water. Agitate vigorously until completely dispersed. For conventional spray systems a 0.25% to 10% BUSAN 1366 spray solution is used. For example, in a 100 gallon day tank, 0.25 to 10 gallons of BUSAN 1366 are added to the day tank and then enough water is added to bring the total volume up to 100 gallons of solution. In electrostatic spray applications, BUSAN 1366 dilution is not required, treatment strength is varied by number of application nozzles used and line speed. Rates, for all applications used, will vary according to temperature, humidity, wood moisture, storage conditions, etc. Contact your local Buckman Laboratories representative for application advice.

Remove sawdust and other debris from treating solution on a regular basis to maintain correct concentration of BUSAN 1366 in application solution. To prevent fungal attack below the surface of the wood, freshly sawn lumber should be treated within 24 hours. Treated lumber should be protected from rain and removed from direct soil/ground contact.

COATINGS, CAULKS, SEALANTS, ADHESIVES, AND INKS

Sufficient mixing to ensure adequate dispersion of the biocide is required. BUSAN 1366 should be used at levels between 0.6 and 10.0%, based on the total weight of the formulation, to inhibit fungal disfigurement and deterioration. For solvent based formulations, BUSAN 1366 can be dissolved in aromatic solvents or combination of aromatic and aliphatic solvents and added to the letdown or added directly to the finished product. For water-thinned latex emulsion formulations, BUSAN 1366 can be premixed with the wetting agent and added to the pigment slurry or simply added to the letdown or the finished product.

Not for use in coatings and adhesives which will come in contact with paper or paperboard.

* Active ingredient developed by Janssen Pharmaceutica, Beerse, Belgium.

ACTIVE INGREDIENT(S)

Propiconazole:1-[[2-(2,4-dichlorophenyl)-4-propyl-1,3-dioxolan-2-yl]-methyl]-1H-1,2,4-triazole..... 8.0%

(0.64 lbs active ingredient/gallon)

INERT INGREDIENTS..... 92.0%

TOTAL..... 100.0%

KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID

If in Eyes	- Hold eye open and rinse slowly and gently with water for 15-20 minutes. - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. - Call a poison control center or doctor for further treatment advice.
If on Skin, Clothes	- Take off contaminated clothing. - Rinse skin immediately with plenty of water for 15-20 minutes. - Call a poison control center or doctor for treatment advice.
If Swallowed	- Call poison control center or doctor immediately for treatment advice. - Have person sip a glass of water, if able to swallow. - Do not induce vomiting unless told to do so by the poison control center or doctor. - Do not give anything by mouth to an unconscious person.
If Inhaled	- Move person to fresh air. - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. - Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. You may also contact 901-278-0330 or 1-800-BUCKMAN for emergency medical treatment information.

Precautionary Statements

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
