NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. This product may pose an aspiration pneumonia hazard.

Precautionary Statements

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: DUE TO CORROSIVE NATURE MAY BE HARMFUL OR FATAL IF SWALLOWED. CAUSES IRREVERSIBLE EYE DAMAGE AND BURNS. HARMFUL OR FATAL IF SWALLOWED OR IF ABSORBED THROUGH SKIN. Do not get in eyes, on skin or on clothing. Wear protective clothing, rubber gloves and poggles or face shield. Wash thoroughly with scap and water after handling. Remove contaminated clothing and wash before resue. Prolonged or repeated dermal contact may cause allergic reactions in some individuals.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writin prior to discharge. Do not discharge effluent containing this product to sever systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA. Do not contaminate water by cleaning of equipment of disposal of waste. Apply this pesticide only as specified on this label.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

LEATHER PRESERVATIVE

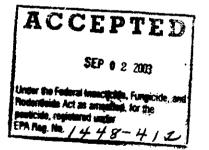

Busan 116 is recommended for the prevention of mold, bacteria and fungl in the storage, transport and processing of wel leather stock such as picked, vegetable-, chrome-, alternative metal or metal free tanned hides and skins.

Dosage rates of 0.01-0.3% (100-3,000 ppm) of white lime stock weight to prevent microbial growth on processed hides and skins. The dosage level used will depend on storage conditions and the length of protection required. A satisfactory dilution of 1 part Busan 116 plus 5 parts weller can be prepared by adding the Busan 116 to water (as opposed to adding water to Busan 116) with agitation. The disted product can then be added to the picking liquor, or to the tanning liquor at the start of the tanning process or to the innex water in a post tanning refloat. The product can also be applied during the fatliquoring process to prevent fungal growth at 0.025-0.075% (250-750 ppm) based on the-split and shared weight of leather being processed.

For preservation of leather finishing pastes and fatiguors, Busan 116 can be added at a dosage rate of 0.05 - 1% (500-10,000 ppm) based on the weight of the treated paste or fatliquor and mixed thoroughly to insure adequate dispersion.

CONDITIONS OF SALE AND WARRANTY

Buckman Laboratories warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label only when used in accordance with label directions under normal conditions of use. BUCKMAN LABORATORIES MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES EITHER OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE. Handling, storage, and use of the product by Buyer or User are beyond the control of Buckman Laboratories and Seller.
