See back panel for additional cautions.

HILO FLEA POWDER FOR DOGS

**DON'T WAIT
UNTIL YOUR DOG
LOOKS LIKE THIS!**

Flea bites cause dogs to scratch, rub or bite themselves. This may result in open sores which induce the invasion of fungus and bacteria. Hilo Flea Powder combines insecticidal and bacteriostatic ingredients. It kills fleas and lice, reduces itching and scratching and is bacteriostatic for skin bacteria which may cause odors.

WORKS WHILE DOG SLEEPS

To Kill Fleas and prevent reinfestation, simply sprinkle powder in dog's bed regularly and liberally. While your dog sleeps, the powder adheres to his body, thus killing all

fleas coming in contact with the powder. If your dog has no regular sleeping quarters rub HILO Flea Powder thoroughly into his coat.

To Kill Lice rub powder into the coat thoroughly. In case of heavy infestation, use HILO Dip Concentrated Rinse which kills fleas and lice in minutes, ticks overnight.

Caution: Harmful if swallowed or inhaled, avoid breathing dust, avoid prolonged repeated contact with the skin, wash thoroughly after use, and avoid contamination of foodstuff. This product is highly toxic to fish. Avoid contamination of ponds, lakes, streams. Do not apply on open cuts or sores. Discard container when empty.

Active Ingredients: Rotenone 1.2%; other Cube Resins 2.4%; (2,2'-methylenebis (4-chlorophenol)) "Dichlorophene" 0.5%; (2,2'-Methylenebis (3,4,6-Trichlorophenol)) "Hexachlorophene" 0.5%

Inert Ingredients: 95.4%

Guarantee: Effective for purposes claimed.

HILO FLEA POWDER FOR DOGS

DON'T WAIT
UNTIL YOUR DOG
LOOKS LIKE THIS!

HiLo Flea Powder for Dogs is a safe, effective, and easy-to-use flea powder for dogs. It kills fleas and lice on contact, and helps to reduce the itching and scratching caused by insect bites. It also helps to reduce the "doggy odors" that are often associated with flea infestations.

To Kill Fleas: Sprinkle a small amount of HiLo Flea Powder for Dogs on your dog's fur, especially around the neck, ears, and tail. Rub the powder into the fur. Repeat every 2-3 days until the infestation is under control.

To Kill Lice: Sprinkle a small amount of HiLo Flea Powder for Dogs on your dog's fur, especially around the neck, ears, and tail. Rub the powder into the fur. Repeat every 2-3 days until the infestation is under control.

Caution: HiLo Flea Powder for Dogs is not intended for use on cats or other animals. Keep out of reach of children. For more information, see the back panel of the container.

Active Ingredients: Rotenone 1.2%, Dichlorophrene 0.05%.

Inert Ingredient: 98.75%.
