for cats

BEST DOCUMENT AVAILABLE

SKIN INFECTIONS
SORES....

INDICATION: For treatment of ear mites.
DIRECTIONS: Hold pet firmly. Fill outer ear canal half full with EAR MITE REMEDY. Massage base of the ear to distribute solution into ear wax. Repeat every other day until condition is relieved. Symptoms of ear mite infestation are usually improved in 2 applications.

DIAGNOSIS: Ear mites normally cause a dry, dark, brown, waxy exudate with crusts in the ears of dogs & cats. The mites are easily observed by placing some of the ear exudate on a dark surface and watching carefully for white specks walking away. DO NOT probe, scratch or injure the delicate tissue of the ear when removing exudate. Inflamed, watery or blocked ear canals indicate a more serious condition which requires the services of a veterinarian.

STORAGE & DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.

Ear Mite Remedy for Dogs Cats

SKIN INFECTIONS SORES....

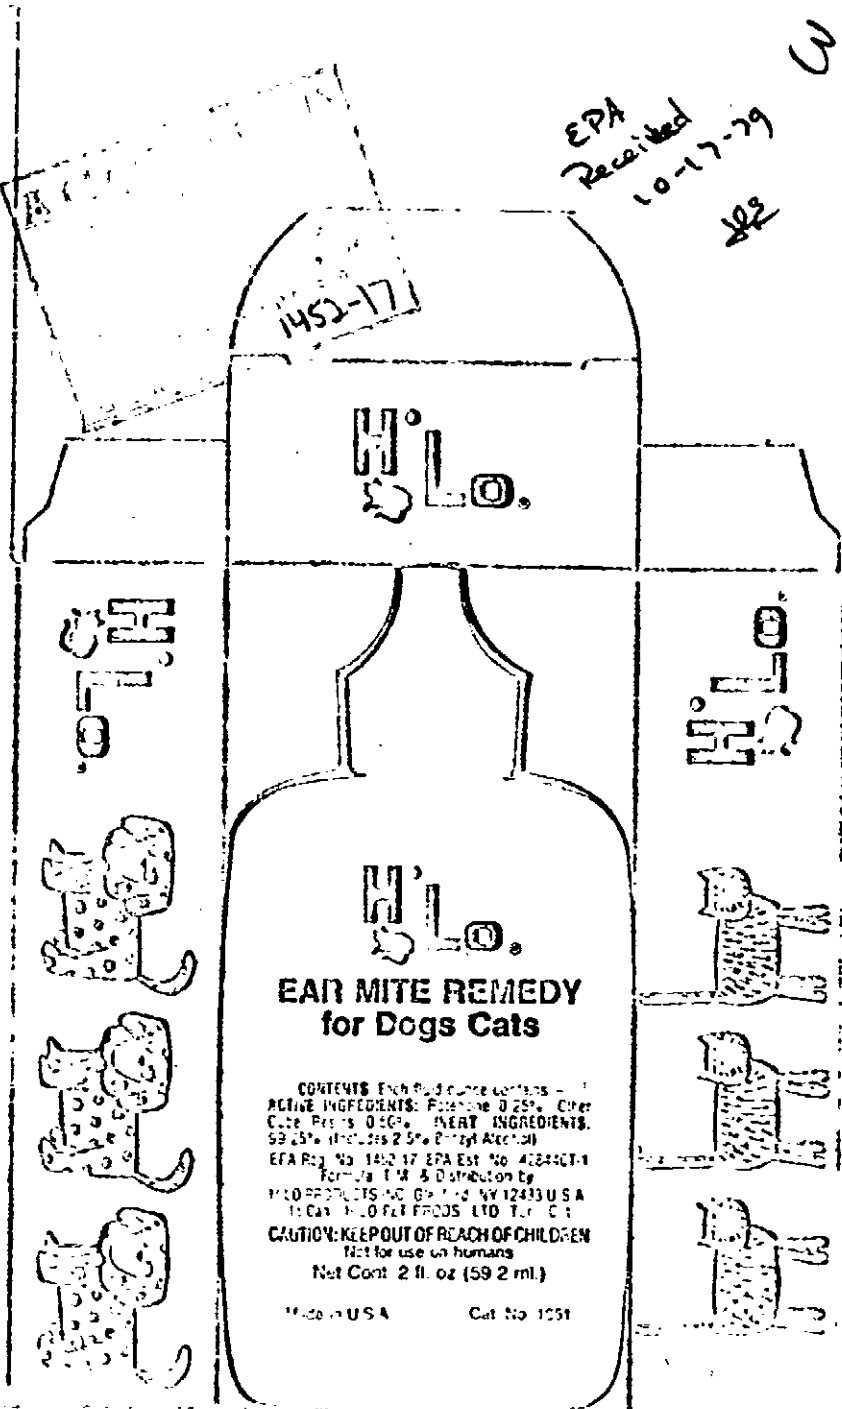

INDICATION: For treatment of ear mites. DIRECTIONS: Hold pet firmly. Fill outer ear canal half full with EAR MITE REMEDY. Massage base of the ear to distribute solution into ear wax. Repeat every other day until condition is relieved. Symptoms of ear mite infestation are usually improved in 7 applications.

DIAGNOSIS: Ear mites normally produce a dark brown, waxy exudate within the ear canal of dogs & cats. The mites are usually observed by placing some of the exudate on a dark surface and watching carefully for white specks walking away. DO NOT probe, swab or injure the sensitive tissue of the ear when removing exudate. Inflamed, watery or blocked ear canals indicate a more serious condition which requires the services of a veterinarian.

STORAGE & DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.
