ANTU for Brown Rats

Active Ingredients: Alpha Naphthyl Thiourea	92%
Inert Ingredients: - - - - -	8%
Total	<hr/> 100%

DIRECTIONS FOR USE

Prepare a 20% mix of ANTU with an inert ingredient such as Calcium Carbonate by blending 1 part of ANTU with 4 parts of a carrier, such as Calcium Carbonate. Dust liberally in brown rat burrows, on floors, runways, shelves, pipes and other areas where rats will run.
If a bait is desired, prepare as follows: Mix one part of the product with 19 parts of bait material such as uncooked ground meat, ground fish, or cereals. Place teaspoonful quantities of prepared bait at intervals along rat runs or in places where rats are seen or known to frequent.

DANGER  **POISON**

WARNING: ANTU is toxic to cats, dogs, hogs and baby chicks. Children, pets and livestock should be kept away from baited areas.

KEEP OUT OF REACH OF CHILDREN.

Avoid contamination of feed and foodstuffs. Avoid breathing dust.

ANTIDOTE: Call a physician immediately. Give a tablespoonful of salt in a glass of warm water and repeat until vomit fluid is clear. Have patient lie down and keep quiet.
