PREEN
GRASS & WEED CONTROL

Contains TREFLAN, an exclusive compound. ONE EASY APPLICATION stops unwanted grasses (annual bluegrass, crabgrass, stinkgrass, goosegrass, barnyard grass, foxtail) and kills many broadleaf weeds (chickweed, knotweed, pigweed, lambsquarters, smartweed, carpetweed, purslane) at sprouting. Will not harm established flowers†, shrubs, and other plants. Do not apply to Ajuga, Myrtle, Pachysandra, and other ornamental groundcovers as injury may result.

WHEN TO USE: PREEN should be applied in the spring around shrubbery and in flower beds containing established plants. Apply before grass and weed seeds begin to sprout.

HOW TO USE: PREEN will control grass and weeds only where applied; therefore, even application (no skips or misses) is important. The contents of this package (1 lb. 9 oz.) should be spread over no more than 250 square feet. For best results, use as follows:

1. Before applying, remove all existing grasses and weeds as PREEN kills sprouting seeds but not established plants.
2. Apply after flowers or plants have become established (2 to 3 inches or more in height).
3. At application, work PREEN lightly into the soil to improve the weed-prevention action of TREFLAN.

CAUTION: Avoid contamination of foodstuffs, feeds, and fishponds. Wash thoroughly after using. For use with ornamental plants only.

†Ageratum, Aster, Balsam, Calendula, California Poppy, Calliopsis, Carnation, Cosmos, Dahlia, Forget-Me-Not, Four O'clocks, Gaillardia, Gladiolus, Hollyhock, Lobelia, Marigold, Morning Glory, Nasturtium, Periwinkle, Petunia, Portulaca, Shasta Daisy, Snapdragon, Stocks, Sunflower, Sweet Alyssum, Sweet Pea, Zinnia.

The manufacturer makes no warranties, express or implied, concerning this product or its use, which extend beyond the description on the face hereof. All statements made concerning this product apply only when used as directed.
