

READ ENTIRE LABEL CAREFULLY BEFORE USING GREENFIELD ROSE AND FLOWER SPRAY protects roses and other flowers against a broad range of pests. Provides: (1) quick knockdown and kill of insects and mites; (2) protection against many insects for about 1 week (contains new, powerful SEVIN); and (3) control of blackspot and other fungal diseases.

KILLS FOLLOWING INSECT PESTS AROUND LAWN AND GARDEN

- | | |
|----------------|----------------------|
| Aphids | Mealy bugs |
| Spider mites | Japanese beetles |
| Leafhoppers | Certain caterpillars |
| Exposed thrips | Rose chafers |
| White flies | Scale insects |
| Lace bugs | Certain Others |

DIRECTIONS FOR USE

WHEN TO APPLY: For insect control, spray at first sign of pests, before infestation is heavy. Spray in morning or evening when air is still—not in heat of mid-day or in bright sun. Do not spray when temperature is below 60 F. or above 85 F. For disease prevention and control, spray weekly. Not for use on house plants inside the home.

HOW TO APPLY: Hold can 18-24 inches from plant with arrow on button pointing toward plant and away from you. Press button, using brief, 1-second bursts. Spray plant parts lightly. Cover both upper and lower leaf surfaces. To spray under leaves, turn cap upside down and release spray. Note: Do not hold can closer than 18 inches from plant when spraying to prevent over-wetting and damage to tender foliage.

WARNING: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130 F. may cause bursting. Never throw container into fire or incinerator.

Harmful if swallowed or inhaled. Avoid prolonged or
