**DIRECTIONS FOR USE:** It doesn't take much—don't waste it. This can will treat 62,500 cubic feet for flies and mosquitoes (78 rooms 10' x 10' x 8'). Remove cap. Hold container upright. Point valve opening away from face and push button. Keep at least 4 feet away from any object when spraying.

**GREENFIELD NEW SCENTED INSECT SPRAY** controls flies, mosquitoes, roaches, ants, moths, carpet beetles, gnats, fleas, silverfish, wasps, spiders, ticks, centipedes, millipedes, **and a number of other common household insects.** Has a pleasant odor.

**IN THE HOME USE:**

For Flying Insects—flies, mosquitoes, flying moths, wasps, hornets, gnats, **and a number of other flying insects**—release spray upward and in all directions into air of closed room about 4 to 6 seconds for every 1,000 cubic feet. After 15 minutes doors and windows must be opened and adequate ventilation provided thereafter. Do not remain in closed room. To control wasps and hornets in nests, spray nests directly at night.

For Crawling Insects—roaches, fleas, silverfish, ants, ticks, centipedes and millipedes. Spray directly and thoroughly into all wall cracks and baseboards. For fleas and ticks, spray floors, floor coverings and animal's sleeping quarters; and for ants spray runways or ant trails, around window and door frames, and behind shelving and in storage areas.

For Clothes Moths and Carpet Beetles hold can at least 4 feet away from article to be sprayed and spray thoroughly with special attention to folds and seams. Spray inside closets or containers where articles are to be stored. Repeat monthly if articles are not stored in moth-tight containers.

**PATIO USE:**

For Outdoor Flying Insects—spray into grass and shrubbery (about 1 foot above ground) in immediate area to be occupied. Hold can about 4 feet away from vegetation being sprayed. Similarly, spray around patios, barbecue pits, picnic tables, and other outdoor areas when the air is quiet. Frequent repeated applications may be necessary, depending on weather conditions. Most effective when air is still.

**CAUTION:** Do not spray directly on skin or on animals. **repeated or prolonged contact may cause toxic symptoms.** If skin is contaminated wash with soap and water, particularly before eating or smoking. Avoid prolonged inhalation of spray mist. Remove birds and pets and cover fish bowls or aquaria before spraying. Do not contaminate feeds, foodstuffs, water or utensils used for same. If swallowed, induce vomiting and get medical attention immediately.

**ANTIDOTE:** Atropine.

**WARNING:** Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° F. may cause bursting. Never throw container into fire or incinerator.
