Directions for Use Read All Directions Carefully Before Applying

Before using this product, read the entire label and directions for use. This product is a fertilizer and should be used only on lawns and ornamental plants. Do not use on food crops, trees, shrubs, or other plants. Do not use on lawns that are dormant or have been recently mowed. Do not use on lawns that are heavily shaded or have been recently watered. Do not use on lawns that are heavily fertilized or have been recently treated with other lawn care products. Do not use on lawns that are heavily trafficked or have been recently mowed. Do not use on lawns that are heavily shaded or have been recently watered. Do not use on lawns that are heavily fertilized or have been recently treated with other lawn care products. Do not use on lawns that are heavily trafficked or have been recently mowed.

Other labels may be attached to this product. Read all directions carefully. Do not use on lawns that are dormant or have been recently mowed. Do not use on lawns that are heavily shaded or have been recently watered. Do not use on lawns that are heavily fertilized or have been recently treated with other lawn care products. Do not use on lawns that are heavily trafficked or have been recently mowed.

Application Directions

Rate, Frequency and Timing of Application
 Apply this product to your lawn at the rate of 1.0 to 1.5 pounds per 1,000 square feet of lawn area. Apply this product to your lawn every 4 to 6 weeks during the growing season. Do not apply this product to your lawn if the lawn is dormant or has been recently mowed. Do not apply this product to your lawn if the lawn is heavily shaded or has been recently watered. Do not apply this product to your lawn if the lawn is heavily fertilized or has been recently treated with other lawn care products. Do not apply this product to your lawn if the lawn is heavily trafficked or has been recently mowed.

Other Labels
 Other labels may be attached to this product. Read all directions carefully. Do not use on lawns that are dormant or have been recently mowed. Do not use on lawns that are heavily shaded or have been recently watered. Do not use on lawns that are heavily fertilized or have been recently treated with other lawn care products. Do not use on lawns that are heavily trafficked or have been recently mowed.

Preparation

Prepare the lawn by mowing and watering. Do not mow the lawn if it is too short or if the grass is too dry. Do not water the lawn if it is too dry or if the grass is too green. Do not apply this product to your lawn if the lawn is dormant or has been recently mowed. Do not apply this product to your lawn if the lawn is heavily shaded or has been recently watered. Do not apply this product to your lawn if the lawn is heavily fertilized or has been recently treated with other lawn care products. Do not apply this product to your lawn if the lawn is heavily trafficked or has been recently mowed.

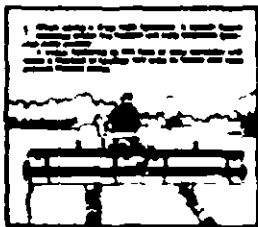

Other labels may be attached to this product. Read all directions carefully. Do not use on lawns that are dormant or have been recently mowed. Do not use on lawns that are heavily shaded or have been recently watered. Do not use on lawns that are heavily fertilized or have been recently treated with other lawn care products. Do not use on lawns that are heavily trafficked or have been recently mowed.

Application Equipment

Use a broadcast spreader or a hand-held spreader. Do not use a backpack sprayer or a hose-end sprayer. Do not use a rotary spreader. Do not use a drop spreader. Do not use a granular fertilizer. Do not use a liquid fertilizer. Do not use a fertilizer that contains iron. Do not use a fertilizer that contains lime. Do not use a fertilizer that contains potassium. Do not use a fertilizer that contains phosphorus. Do not use a fertilizer that contains nitrogen. Do not use a fertilizer that contains sulfur. Do not use a fertilizer that contains zinc. Do not use a fertilizer that contains boron. Do not use a fertilizer that contains copper. Do not use a fertilizer that contains manganese. Do not use a fertilizer that contains calcium. Do not use a fertilizer that contains magnesium. Do not use a fertilizer that contains potassium. Do not use a fertilizer that contains phosphorus. Do not use a fertilizer that contains nitrogen. Do not use a fertilizer that contains sulfur. Do not use a fertilizer that contains zinc. Do not use a fertilizer that contains boron. Do not use a fertilizer that contains copper. Do not use a fertilizer that contains manganese. Do not use a fertilizer that contains calcium. Do not use a fertilizer that contains magnesium.

Other labels may be attached to this product. Read all directions carefully. Do not use on lawns that are dormant or have been recently mowed. Do not use on lawns that are heavily shaded or have been recently watered. Do not use on lawns that are heavily fertilized or have been recently treated with other lawn care products. Do not use on lawns that are heavily trafficked or have been recently mowed.

Helpful Application Techniques For Applying Balen 2.5 G.

Listed below are approximate spreader settings. These should serve only as a guide. Actual settings for individual spreaders will vary in later operation depending on the type, condition, particular

model and speed of operation. Always calibrate your own spreader according to the manufacturer's recommendations.

Approximate Spreader Settings As A Guide For Calibration (For Applying Balen 2.5 G. and over the turf)

Spreader Type	To Apply Pounds Per Acre			Spreader Type	To Apply Pounds Per Acre		
	60	80	120		60	80	120
Cyclone				Gandy			
Models B, BB, BB and 100	3.25	3.75	4.0	Model 10A series, 8, 8, 10, 11, and 20 ft.	13	15	17
Models M-3, M-1, and M-1A (based on tractor speed of 4 mph)	6.5	7.25	8.75	3-point hitch series, 8, 10, 12 and 14 ft. (based on tractor speed of 5 mph)	38	40	50
Models S-1 and S-3 (based on tractor speed of 4 mph and PTO speed of 540 rpm)	6.25	7.0	8.25	800 series, 3, 4, and 5 ft. (based on tractor speed of 3 mph)	19	22	25
Econo Flow				Lady			
Models 100 and 80F	B	5 1/4	C	Models W and H (based on tractor speed of 4 1/2 mph)	3	4	5
Models 100 and 116	A(1)	B(2)	C(2)	Beck			
Model 100 (1) at 5 mph (2) at 6 1/2 mph	C(1)	A(1)	B(1)	Rotary, Model RS	D	E	G

Precautions

Apply Balen 2.5 G. to the lawn only in the presence of good grass. Do not apply to dormant lawns. Do not apply to lawns that are heavily shaded or have been recently watered. Do not apply to lawns that are heavily fertilized or have been recently treated with other lawn care products. Do not apply to lawns that are heavily trafficked or have been recently mowed.

Other labels may be attached to this product. Read all directions carefully. Do not use on lawns that are dormant or have been recently mowed. Do not use on lawns that are heavily shaded or have been recently watered. Do not use on lawns that are heavily fertilized or have been recently treated with other lawn care products. Do not use on lawns that are heavily trafficked or have been recently mowed.
