

Read all label directions carefully before applying.

GENERAL INFORMATION

PARNON® Liquid Concentrate is a new, highly effective fungicide for the prevention of powdery mildew on roses, zinnias, apple trees (non-bearing), and grapevines (non-bearing). PARNON strongly adheres to the leaf and is not easily washed off by rain or overhead irrigation. Used as directed PARNON will not harm the foliage or floral tissue of plants.

APPLICATION DIRECTIONS

Mix PARNON Liquid Concentrate with water during the spray tank filling operation and apply as a spray to the plant foliage. Spray at a volume and pressure sufficient to insure thorough coverage of all plant surfaces, including all new growth. Apply PARNON prior to the time of expected powdery mildew infection. Repeat as required for continued powdery mildew control.

Roses:

For light infestation: Add one-half pint of PARNON to 100 gallons of water to obtain the recommended 25 ppm concentration. For smaller amounts, mix one ounce per 12 gallons.

For heavy infestation: Add one pint of PARNON to 100 gallons of water to obtain the recommended 50 ppm concentration. For smaller amounts, mix one ounce per six gallons.

Special note: When treating field-grown roses, the gallonage of water used may be increased to allow for thorough plant coverage. It is important, however, that one-half pint of PARNON be applied per acre for light infestations, or one pint of PARNON be applied per acre for heavy infestations.

Apple Trees and Grapevines (non-bearing): Add one-half pint of PARNON to 100 gallons of water to obtain the recommended 25 ppm concentration. For smaller amounts, mix one ounce with 12 gallons.

Zinnias: Add one-fourth pint of PARNON to 125 gallons of water to obtain the recommended 10 ppm concentration. For smaller amounts, mix one ounce with 30 gallons.

Repeat spray applications at one to two week intervals, depending upon local disease-producing climatic conditions. Continue spray treatments as long as disease conditions prevail.

CAUTION

Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Product causes severe eye damage, wear goggles and rubber gloves when handling. If splashed in eyes, flush thoroughly with water. Avoid breathing spraymist. If irritation persists, get medical attention.

Avoid contamination of foodstuffs, feeds, and fishponds.

Destroy empty container. Do not reuse.

The manufacturer makes no warranties, express or implied, concerning this product or its use, which extend beyond the description on the label. All statements made concerning this product apply only when used as directed.
