

PAARLAN E.C. APPLICATION WITH DRY BULK FERTILIZERS  
(EPA Reg. No. 1471-79)

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PAARLAN impregnated or coated on dry bulk fertilizer is recommended for the control of weeds and grasses as claimed on the current labels.

GENERAL

Dry bulk fertilizers may be impregnated or coated with PAARLAN. Application of dry bulk fertilizers impregnated with PAARLAN has provided weed and grass control equal to the same rates of PAARLAN applied in water.

All PAARLAN label recommendations regarding rates per acre, approved crops, incorporation, special instructions, cautions, and special precautions must be followed. All individual state regulations relating to dry bulk fertilizer blending, registration, labeling and application are the responsibility of the individual and/or company selling the fertilizer and chemical mixture.

LIMITATIONS

Apply a minimum of 200 pounds per acre of dry fertilizer impregnated with PAARLAN at the recommended rate. Any commonly used dry fertilizers can be used for PAARLAN impregnation except straight coated ammonium nitrate and straight limestone. These materials will not absorb the herbicide. Blends containing mixtures of these materials can be impregnated.

**BEST AVAILABLE COPY**

of at least 6 pints per ton.

RATES

Check the crop section to determine the rate of PAARLAN per acre. Calculate the amount of PAARLAN to be impregnated on a ton of dry bulk fertilizer based on the amount of fertilizer which will be applied per acre.

$$\begin{array}{r} \text{QUARTS PAARLAN} \\ \text{PER ACRE} \end{array} \quad \times \quad \frac{2000}{\text{LBS. FERTILIZER}} \quad = \quad \begin{array}{r} \text{QUARTS PAARLAN (} \\ \text{PER TON OF} \\ \text{FERTILIZER} \end{array}$$

APPLICATION

Spread the fertilizer/chemical mixture normally with a properly calibrated applicator. Be certain the material is applied uniformly to the soil surface.

INCORPORATION

Follow normal PAARLAN incorporation procedures.

(PAARLAN - isopropalin, Elanco)
