## Directions for Use

See literature on side of container for complete directions for use.

Read all directions carefully before applying.

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Shake Well Before Use.

## Precautionary Statements

### Hazards to Humans and Domestic Animals

#### CAUTION

Avoid contact with skin, eyes and clothing. Avoid breathing vapors. Harmful if swallowed, inhaled, or absorbed through the skin. Treflan M.T.F. may cause skin sensitization reactions in certain individuals. Use eye protection and protective clothing such as coveralls, a long sleeved shirt, and impermeable gloves when handling this product. Do not contaminate foodstuffs or feeds.

First Aid: In case of contact, immediately flush eyes or skin with plenty of water. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

### Environmental Hazards

Direct contamination of any body of water with this emulsifiable concentrate may kill fish and other aquatic organisms. Do not contaminate any body of water by direct application, cleaning of equipment or disposal of wastes.

## STORAGE AND DISPOSAL

**Storage:** Store in original container only. May be stored in unheated facilities. Do not store near heat or flame. In case of leak or spill, use absorbent materials to contain liquids and dispose as waste.

**Pesticide Disposal:** Do not contaminate water, food or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Disposal:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities by burning. If burned, stay out of smoke.

The manufacturer makes no warranties, express or implied, concerning this product or its use which extend beyond the description on the label or in literature published by Elanco Products Company, and all statements made concerning this product apply only when used as directed. Elanco Products Company expressly disclaims all warranties, express or implied, in relation to any use of the product in combination or sequential use with any other product not specifically recommended in writing by Elanco Products Company. If used in a combination or sequential use recommended by Elanco Products Company, the liability of Elanco shall in no manner extend to any damage, loss or injury not directly caused by the inclusion of the Elanco product in such combination or sequential use.

Nightshade, hairy  
Nutsedge

Pennsylvania  
Velvetleaf (Buttonweed)

Follow recommended soil preparation and incorporation procedures for Treflan. The Treflan/Eptam tank mix should be applied from 2 days before planting up to planting. Incorporate immediately after application.

#### Broadcast Rates Per Acre

Soil Texture	Treflan M.T.F.		Eptam 7E
	Areas receiving less than 20" average annual rainfall*	Areas receiving greater than 20" average annual rainfall*	
Coarse	(pints) 1	(pints) 1	(pints) 2½-3½**
Medium	1¼-1½	1½	2½-3½
Fine	1½	2	2½-3½

\*Use 1½ pints per acre on coarse and medium textured soils and 2 pints on fine soils with 2-5% organic matter; use 2 pints on all soils with 5-10% organic matter.

\*\*Use Eptam 7E at a rate of 2½ pints per acre to control annual grasses; 3½ pints to control nutsedge and additional broadleaf weeds.

Precaution: Read the Eptam label before using. Observe all cautions and limitations of all products used in mixtures. The combination of Treflan and Eptam should not be used on soybeans, black-eyed peas (beans), lima beans and other flatpodded beans, except Romano. Do not use the foliage from a crop

treated with the Treflan/Eptam tank mix for feed or for grazing.

**Dry Bean**—Fall application for dry bean grown in Idaho, Oregon, and Washington:

Apply and incorporate Treflan any time between October 15 and December 31 at a broadcast rate of 1 pint per acre on coarse soils; 1¼ to 1½ pints on medium soils; and 1½ pints on fine soils. Destroy established weeds during seedbed preparation.

**For the Following Crop Grouping, Use the Rate Listed Below.**

**Beans**—(Gua and Mungbean)

**Greens**—Turnip greens grown for processing. Collard, Kale and Mustard greens.

**Mustard**—Grown for seed or processing for food in Minnesota, Montana and North Dakota:

South Dakota and

Apply and incorporate Treflan before planting at 1 pint per acre on coarse soils and 1½ pints on medium and fine soils.

**Beans**—(Lima Bean and Snap Bean):

Apply and incorporate Treflan before planting at a broadcast rate of 1 pint per acre on coarse and medium soils and 1½ pints on fine soils.

**Corn** (Field Corn) and Grain Sorghum (Milo)

Apply Treflan to field corn or grain sorghum (8 inches or taller) as an over-the-top or directed spray to effectively control weeds listed for Treflan.
