ACCEPTED  
MAR 24 1983

TREFLAN/EPTAM® TANK MIX  
APPLIED AS AN OVERTOP SPRAY AND INCORPORATED  
FOR WEED CONTROL IN SUGAR BEETS

1471-120

TREFLAN may be tank mixed with Eptam and used as an overtop spray and incorporated for weed control in sugar beets. Apply the tank mix anytime after the first true leaves have formed until the beets are six (6) inches tall.

## BROADCAST RATES PER ACRE

| Soil<br>Texture | TREFLAN                 |                   | Eptam 7E**<br>(pints) |
|-----------------|-------------------------|-------------------|-----------------------|
|                 | E.C./M.T.F.*<br>(pints) | PRO-5*<br>(pints) |                       |
| Coarse          | 1                       | 0.8               | 2 1/4 - 3 1/2         |
| Medium/Fine     | 1 1/4 - 1 1/2*          | 1 - 1.2*          | 2 1/4 - 3 1/2         |

\*Use the higher rate of TREFLAN for medium and fine soils in areas receiving more than 20" average annual rainfall.

\*\*Check the Eptam label for proper rate for your area.

Read the TREFLAN and Eptam labels for additional weeds controlled, incorporation directions, additional directions, cautions and limitations prior to use.
