

## Precautionary Statements

### Hazards to Humans and Domestic Animals

#### CAUTION

Harmful if swallowed. If swallowed, drink one (1) or two (2) glasses of water and induce vomiting by placing finger in back of throat, and call a physician. Never give anything by mouth to an unconscious person. Avoid contact with skin, eyes or clothing. In case of contact, flush with water.

#### Environmental Hazards

Do not contaminate any body of water, ponds or streams as death or injury may occur to vegetation irrigated by such. Do not contaminate water by cleaning of equipment or disposal of wastes.

#### STORAGE AND DISPOSAL

**Storage:** The herbicidal properties of Spike Treflan 6G require caution in handling, storage and transportation of this product. Store in original container only. In case of leak or spill, contain material and dispose as waste.

**Pesticide Disposal:** Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Disposal:** Completely empty bag into application equipment - do not reuse. Then dispose of empty bag and box in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

#### Precautions

Spike Treflan 6G is intended for total vegetation control. It is an extremely active herbicide which will kill trees, shrubs and other forms of desirable vegetation having roots extending into the treated area. Feeder roots of many species of desirable vegetation extend many feet beyond the drip line of the branches, and a very small amount of Spike Treflan 6G in contact with one feeder root of a tree, shrub or other desirable vegetation may cause serious injury or death to the entire plant.

An arboriculturist (tree expert) should be consulted to help you to determine if the area of proposed application is free of all roots of desirable vegetation. The effect of Spike Treflan 6G on desirable vegetation may be irreversible and its presence in the soil may prevent growth of other desirable vegetation for some years after application.

Read the entire label before using Spike Treflan 6G to determine if this product is suitable for the desired purpose.

Do not use Spike Treflan 6G on areas such as walks, driveways, streets, lawns, patios, tennis courts, swimming pools, cemeteries, or other landscaped areas, or under asphalt or concrete pavement where future landscaping is planned. Do not apply on or near field crops. Do not apply on any area into which the roots of desirable vegetation may extend. Do not apply in locations where the chemical may be moved outside the intended treatment area by runoff, sheet erosion, wind erosion or any other cause. Contact with roots of desirable vegetation may result in severe injury or death of the plant. Roots of trees, shrubs, and other desirable vegetation may extend far beyond the drip line of the plant's branches.

**Ditchbank Usage:** Do not apply Spike Treflan 6G to any portion of the ditchbank that will come into direct contact with water as movement of Spike Treflan 6G in this water to non-target plant species may result in the injury or death of those plants. Do not apply on ditches used to transport irrigation or potable water. Keep from contact with other pesticides and seeds.

Thoroughly clean all traces of Spike Treflan 6G from application equipment after use. Do not empty residues cleaned from application equipment on areas where they may come in contact with the roots of desirable vegetation or the water source for such vegetation.

**Herbaceous Perennials (Non Woody Plants):** Do not allow domestic livestock to graze in treated areas. Do not cut to mow from treated areas for feeding livestock. Spike Treflan 6G may injure or suppress certain herbaceous vegetation in the treated area. Therefore, do not apply where such injury cannot be tolerated. Injury to most herbaceous perennials is reduced if Spike Treflan 6G is applied when this vegetation is dormant.

ACCEPTED

1977 - 9 1984

U.S. Department of Agriculture  
as accepted for the pesticide  
registered under  
EPA Reg. No. 1471-139

Net Weight 10 Pounds

A preemergence and postemergence herbicide  
for broad spectrum control of vegetation.

#### Active Ingredients:

tebuthiuron: *N*-[5-(1,1-dimethylethyl)-1,3,4-thiadiazol-2-yl]-*N,N'*-dimethylurea ..... 2%  
trifluralin:  $\alpha,\alpha,\alpha$ -trifluoro-2,6-dinitro-*N,N*-dipropyl-*p*-toluidine ..... 4%

Inert Ingredients ..... 94%

Contains 0.6 pound active ingredients per 10 pound container.

**Spike**®—the registered trademark for Elanco Products tebuthiuron

**Treflan**®—the registered trademark for Elanco Products trifluralin

Keep Out of Reach of Children.

**CAUTION**

See side panel for additional precautionary statements.

Spike® and Treflan® kill trees and shrubs. Carefully read the precautions before using.

## Directions for Use:

Read All Directions Carefully  
Before Applying

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Spike Treflan 6G is recommended as a surface application in nonlandscaped, noncropland areas for the control of unwanted vegetation. Spike Treflan 6G should be applied to grass treated the previous season with Spike or other residual herbicides. The Treflan component of this product will only provide preemergence control of susceptible annual grass and broadleaf weeds. Existing vegetation in the intended area of treatment not susceptible to the postemergence properties of Spike will not be controlled.

### Rates:

Apply Spike Treflan 6G with a properly calibrated granular applicator to uniformly cover the target area. Treatment of small areas such as around the base of utility poles or structures or along fence rows can be accomplished by uniformly spreading the material by hand. Protective gloves should be worn during this operation.

Apply Spike Treflan 6G at 100 to 200 pounds per acre to control the following weed species.

At 100 pounds per acre (2 1/3 pounds will treat 1000 sq ft) Spike Treflan 6G will control the following:

Barnyardgrass*	Fleabane annual	Mullein	Sandbur*
Bassia, firehook	Florida	Mustard	Shepherdspurs
Bluegrass, annual	purslane*	Oat, wild	Smartweed,
Bluegrass, (including giant)	Portulaca	Oxeye	Pennsylvania
Kankakee	Goosefoot*	bristly	Sprangletop
Brachiaria	Goosegrass*	Panicum, fall	Starthistle,
Bromegrass*	Horseweed	Panicum, Texas*	yellow
Buttercup	Johnsongrass*	Paranip, wild	Stinging nettle*
Canarygrass, seed	(from seed)	Pepperweed	Stinkgrass*
Carelessweed*	Jungle rice*	Pigweed	Sweetclover
Carpetweed*	Knapweed,	Pigweed	Telegraphplant
Carrot, wild	Russian	Pigweed, common	Thistle, Canada
Chest	Knotweed	Ragweed,	Thistle, Russian*
Chickweed	Kochia*	western	Wild cane*
Crabgrass*	Lambsquarters*	Ryegrass, annual	(shattercane)
Croton	Lettuce, prickly	Saltbush	Witchgrass
Cudweed	Mallow		Woodsorrel, yellow

\*Weeds followed by an asterisk will only be controlled when applications are made prior to weed seed germination.

At 200 pounds per acre (4 2/3 pounds will treat 1000 sq ft) Spike Treflan 6G will control the following weeds in addition to those listed above:

Alfalfa	Catsear, spotted	Geranium,	Ragweed, giant
Aster, heath	Clover, red	Carolina	Raspberry, red
Aster, white	Cocklebur	Goldenrod	Sedge, annual
heath	Creeper,	Grape	Sida, prickly
Barley, little	Virginia	Gumweed	Sowthistle,
Bedstraw	Crowfootgrass	Hemlock,	annual
Bouncingbet	Dock, curly	Poison	Spikeweed
Bromegrass, downy	Dogfennel	Henbit	Spurge
Bromegrass, ripgut	Fescue, rattail	Honeysuckle,	Spurge, spotted
Bromegrass, smooth	Fiddleneck, coast	Japanese	Strawberry
Broomsedge	Flaxseed	Lupine	Sunflower,
Bullgrass	Flaxseed, redstem	Medic, black	common
Burclover	Gaillardia	Morningglory	Timothy
Camphorweed	rosering	Nightshade,	Trumpet creeper
		silverleaf	Vetchgrass
		Puncturevine	Vetch

### Limited Warranty:

The manufacturer makes no warranties, express or implied, concerning this product or its use which extend beyond the description on the label. All statements made concerning this product apply only when used as directed. Spike Treflan 6G must be applied according to Elanco's written instructions, including, but not limited to, recommended rates. Failure to do so may result in poor weed control or plant injury. Elanco expressly disclaims a warranty, either express or implied, for the use of Spike Treflan 6G alone or in combination with other products, when that use is not in strict compliance with Elanco's written recommendations. Limitation of Damages: Elanco's liability, whether in contract, warranty, tort, negligence, strict liability or otherwise shall not exceed the return of the amount of the purchase price of the Spike Treflan 6G, and under no circumstances shall Elanco be liable for special indirect or consequential damages.

Herbicide

# Spike. Treflan.

6G

Net Weight 10 Pounds

A preemergence and postemergence herbicide for broad spectrum control of vegetation in such areas as:

- Airport runways
- Utility substations and rights-of-way
- Tank farms
- Railway roadbeds and ballast
- Railroad rights-of-way
- Road shoulders where no vegetation is desired
- Under asphalt and concrete pavements where no future landscaping is planned
- At the base of highway guardrails, signposts, and markers
- At the base of transmission towers and poles
- Around industrial buildings
- Lumberyards
- Railroad yards
- Ditchbanks
- Firebreaks
- Fence rows

The degree and duration of control may vary with the amount of chemical applied, soil texture, and other conditions.
