Subject: Label Notification for Pesticide Registration Notices 2007-4 and 97-6

Dear Ms. Tryson,

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notices (PRN) 2007-4 and 97-6, dated April 21, 2008 for the product ENOZ[®] Moth Cake (EPA Registration Number 1475-7). The Registration Division (RD) has conducted its review of this request for its applicability under PRNs 2007-4 and 97-6 and finds that the label changes requested fall within the scope of PRNs 2007-4 and 97-6. The label submitted with the application has been stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please call me directly at 703-305-6249 or Steve Schaible of my staff at 703-308-9362.

Sincerely,
