WARNING

See back panel for additional precautionary statements

Net Contents: 1 lb. (453.6g)
1 lb. 8 ozs. (630.39g)

Back Label:

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions: Kills Clothes moths, Carpet beetles and their eggs and larvae in storage closets and in clean, airtight containers, such as chests, trunks, and garment bags. Do not use dry cleaning bags, garbage bags or other containers that allow vapors to escape into occupied rooms. This product can damage some plastics, use only in polyethylene or polypropylene containers. Paradichlorobenzene should not be mixed or placed in contact with other moth preventive chemicals. ENOZ® Para Moth Balls prevents moth infestation regardless of fabric type.

Pre-Application Directions: Before storing, dry clean, wash or brush articles to be protected.

Application Directions: The mothballs in this container can treat up to 50 cubic feet (16 oz. container) [75 cubic feet (24 oz. container)].

Calculate the volume to be treated in cubic feet by multiplying the height by the width, and depth of the space. One ounce of mothballs or 8 mothballs can treat up to 3 cubic feet of storage space. Examples of the amount of product required for proper treatment are listed below:

4 oz. (32 mothballs)	Average Garment Bag (12 cu. ft.)
5 oz. (40 mothballs)	Large Trunk (15 cu. ft.)
16 oz.	Small Storage Close (50 cu. ft.)

The proper treatment of larger volumes may require the use of additional containers of ENOZ® Para Moth Balls. To insure protection of your cloths, use the recommended amount of ENOZ® Para Moth Balls.

Distribute mothballs evenly around and between the folds of stored articles. Keep product in airtight space for a minimum of 7 days. If mothballs have dissipated, add additional mothballs to the storage closet or container. Odor quickly vanishes when articles are aired.

Retreatment: Since moths are active all year, replenish air-tight closets, contains, and bags 2 times a year.
