 St. Louis, MO 63110

Decision 425786
676 5-922498
1275

Attention: Ms. Kathie J. Tryson

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

EPA received your label amendment of August 23, 2012. EPA grants this request under the authority of section 3(c)(5) of the Federal Insecticide, Fungicide and Rodenticide Act, as amended.

Signature of Approving Official:

John Hebert
 Product Manager (07)
 Insecticide-Rodenticide Branch
 Registration Division (7505P)

Date:

AUG 27 2012

Notice of Reregistration (continued)
EPA Reg. No. 1475-144

With this accepted labeling, the product meets the risk management goals of the Reregistration Eligibility Decision (RED) for Paradichlorobenzene. Therefore, EPA reregisters the product listed above. This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides.

Confidential Statement of Formula

The acceptable Confidential Statements of Formula (CSF) for this product are dated February 6, 2012 (Basic Formulation and Alternate Formulation). All other versions are obsolete.

Existing Stocks Provisions

Stocks of product with existing labels may be used for twelve (12) months.

Per 40 CFR 156.10(a)(6), submit one copy of your final printed labeling before you release the product for shipment.

Follow the enclosed "Minimum Type Size Requirements for Final Printed Label".

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

We have enclosed a copy of your label, stamped "Accepted", for your records.

If you have any questions or comments regarding this letter, please contact Mr. Dan Peacock by phone (703- 305-5407) or e-mail (peacock.dan@epa.gov).

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **IMPORTANT: Keep out of reach of children. Do not place in areas accessible to children.**

Use Restrictions: Each sachette bag can treat up to 6.3 cubic feet. Kills clothes moths and carpet beetles and their eggs and larvae in clean, airtight containers, such as chests, trunks, and garment bags. Do not use dry cleaning bags, garbage bags or other containers that allow vapors to escape into occupied rooms. This product can damage some plastics. Use only in polyethylene or polypropylene containers. p-Dichlorobenzene should not be mixed or placed in contact with other moth preventive chemicals.

Pre-Application Directions: Before storing, dry clean, wash or brush articles to be protected. Prevents moth infestation regardless of fabric type.

Application Directions: Calculate the volume to be treated in cubic feet by multiplying the height times the width times the depth of the space. One sachette can treat up to 6.3 cubic feet of storage space. Examples of the amount of product required for proper treatment are listed below:

2 sachettes	Average Garment Bag (12 cu. ft.)
3 sachettes	Large Trunk (15 cu. ft.)
8 sachettes	Small Storage Closet (50 cu. ft.) {24 oz. size only}

The proper treatment of larger volumes may require the use of additional containers of REEFER-GALLER® OLD FASHIONED Moth Sachettes (ENOZ® Moth Sachettes). To insure protection of your clothes, use the recommended amount of REEFER-GALLER® OLD FASHIONED Moth Sachettes (ENOZ Moth Sachettes).

Place sachettes on top of articles in chests, trunks, garment bags and other closed storage receptacles. The vapors work downward killing all forms of moth life. Keep storage containers tightly closed at all times. When crystals have dissipated replace with new sachette bag. Odor quickly vanishes when articles are aired.

Retreatment: Since moths are active all year, replenish air-tight containers 2 times a year or when product has dissipated.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store only in original container, in a cool dry place inaccessible to children and pets. Keep container closed and away from other chemicals. **Pesticide**

Disposal and Container Handling: Nonrefillable Container. Do not reuse or refill container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

WARNING Causes substantial but temporary eye injury Harmful if swallowed absorbed through skin or inhaled Causes eye skin and respiratory tract irritation Do not get in eyes or on clothing Avoid contact with skin Avoid breathing vapors Wash thoroughly with soap and water after handling Remove contaminated clothing and wash before reuse
