DIRECTIONS FOR USE

FOR FLIES AND MOSQUITOES: Close up the infested area and fill it with a mist. Leave space closed for 15 minutes. Sweep up and burn all dead insects. Repeat if necessary.

FOR ANTS AND ROACHES: Spray all cracks and crevices get as much spray on the insects as possible. Spray behind baseboards, door sills, window frames, and every place where insects enter. Spray ant trails Repeat once a week until the insects entirely disappear.

FOR MOTHS: Air and spray all storage spaces. Spray all articles thoroughly especially folds and seams. Get thorough spray coverage. Repeat monthly unless articles are stored in a moth proof container.

FOR BED BUGS: Thoroughly spray bed mattress, baseboards, walls, floors, and all hiding places. Repeat once a week until entirely relieved.
