

Contains the disinfecting power of ethyl alcohol and is oil emulsified with the wide bacterial action of a phenolic germicide.

A clear water product that instantly forms an emulsion when poured into water.

To be used in hospitals, restaurants, schools, stores, buildings and clinics on floors, walls, office furniture and bathroom fixtures.

For disinfecting lightly soiled surfaces use 2 to 3 ounces to a gallon of water. Scrub surface thoroughly and allow to remain 5 minutes. Rinse with clear water.

First Aid: Wash with water.
