Main Office: 734 East S. P. Drive — Phoenix, Arizona 85001 — Phone 253-1111

DIRECTIONS FOR USE

This insecticide is for the control of cabbage looper on lettuce, broccoli, Brussels sprouts, cabbage and cauliflower. Apply at the rate of 25 pounds per acre in a manner to give thorough coverage of the affected portions of the crop-plants. Begin applications when a damageable or potentially damageable infestation of the insects occurs, and continue treatment at weekly intervals as necessary to maintain control. Treatments may be continued up to 4 days before harvest on lettuce. For cabbage, broccoli, Brussels sprouts and cauliflower treatment may be continued to within 3 days of harvest. For further specific information consult your state agricultural extension service.

CAUTION

Do not apply where material will drift on grazing dairy cattle or animals being finished for slaughter.

Use only for recommended purposes at recommended dosages. Do not apply to any area not specified on this label.

NOTICE

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and or handling is contrary to label instructions.

**DANGER: KEEP OUT OF REACH OF CHILDREN.
