

BT 320 DUST

EPA Reg. No.1526-497

BT 320 Dust is a biological insecticide preparation suitable for use in conventional dust application equipment as an aid in the control of leaf chewing larvae (caterpillars) of certain Lepidopterous species (butterflies and moths) frequently found to be pests on crop plants.

BT 320 is exempt from tolerance restrictions on the crops listed and may be applied any time.

ACTIVE INGREDIENT	BY WT
<u>Bacillus thuringiensis</u> Berliner, potency of 320 International Units per mg. (at least $\frac{1}{2}$ billion viable spores per gram*)-----	0.064%
INERT INGREDIENTS-----	99.936%
	100.000%

*Equivalent to potency of 145 million International Units per pound of this product.

ACCEPTED

DIRECTIONS FOR USE

Begin applications when pests are first noticed. BT-320 is most effective on larvae smaller than 1/2 inch long. Repeat applications as often as necessary to maintain control. Since BT-320 must be ingested, good coverage of both leaf sides aids in optimum control.

<u>CROP</u>	<u>INSECT PEST</u>	<u>RATE OF APPLICATION</u>
Broccoli Cabbage Cauliflower Celery Lettuce Potatoes	Cabbage looper	30-50 lbs. per acre
Grapes	Grape Leaf folder	20-40 lbs. per acre

Use lower rate except under heavy infestations when loopers are large or when foliage is very heavy.
