Ms. Sangeeta Khattar International Specialty Products 1361 Alps Road Wayne, NJ 07470

DEC - 9 2002

Subject:

. Nuosept 635W Preservative

EPA Registration No. 1529-29

Amendment Date: September 10, 2002 EPA Receipt Date: September 11, 2002

Dear Ms. Khattar,

The following amendment submitted in connection with registration under FIFRA, as amended, is acceptable with the conditions listed below.

- Update the first aid statements per PR Notice 2001-1
- Update the label to reflect the change in the product's ownership

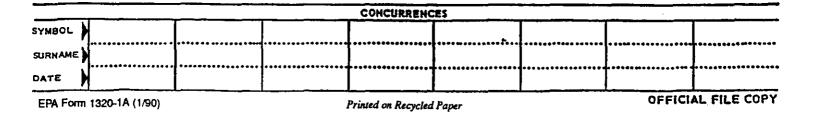

Conditions

Revise the label as follows:

1. According to the Label Manual, 2nd Edition, the precautionary statements must be arranged so that the most severe routes of exposure as demonstrated by the toxicity category classification are listed first. Therefore, you must rearrange the statements to reflect the following:

Corrosive. Causes irreversible eye damage and skin burns. Harmful if absorbed through the skin or inhaled. Do not get in eyes, on skin, or on clothing. Avoid breathing spray mist. Wear chemical splash goggles or faceshield, protective clothing, and rubber gloves. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash hands thoroughly with soap and water before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

2. The "Storage and Disposal" section must be revised by deleting "PROHIBITIONS," and moving the "Storage Instructions" to appear before the "Pesticide Disposal" statements.

3/5

General Comments

A stamped copy of the labeling accepted with conditions is enclosed. Submit three (3) copies of your final printed label before distributing or selling the product bearing the revised labeling.

Should you have any questions regarding this letter, please contact Jacqueline McFarlane at (703) 308-6416.

Sincerely,

Velma Noble

NUOSEPT 635-W PRESERVATIVE

SOLD FOR USE IN THE COATINGS INDUSTRY AS AN INDUSTRIAL PRESERVATIVE AGAINST BACTERIA

ACTIVE INGREDIENT:	
Alkyl (derived from fatty acids of coconut oil*) amine hydrochloride	25.00%
(*5.0% Caprylyl, 7.0% Capryl, 56.0% Lauryl, 18.0% Myristryl, 7.0% Palmityl,	
5.0% Stearyl, 2.0% Linoleyl)	
INERT INGREDIENTS	<u>75.00%</u>
ГОТАL:	100.00%
This product contains 1.98 lbs. alkyl amine hydrochloride per gallon.	

DANGER

FIRST AID

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

IF SWALLOWED: Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a Poison Control Center or doctor for further treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Possible mucosal damage may contraindicate the use of gastric lavage.

EPA Est. No.: 1100-CN-02

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

A liquid organic biocide (also called antimicrobial or in-can preservative), recommended for use as an industrial preservative for the protection of water based products such as resins, emulsion paints, adhesives, dispersed colors and printing inks against microbiological spoilage in the wet state. Typical use levels range from 0.15 to 0.3% by weight in the final formulations, but should not exceed 0.5% of the final product for any application.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS DANGER

CORROSIVE. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Avoid breathing spray mist. Wear chemical splash goggles or face shield, protective clothing, and rubber gloves. Wash thoroughly with soap and water after handling. Harmful if absorbed through skin. Harmful if swallowed or inhaled. Use with adequate ventilation. Do not breath vapor or spray mist. Prolonged or frequent skin contact may cause allergic reaction in some individuals. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

The pesticide is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

PROHIBITIONS - Do not contaminate water, food, or feed by storage or disposal. PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL - Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

STORAGE INSTRUCTIONS - Product should be stored in an area that is not subject to extreme temperatures. Property equipment, as indicated above, should be worn when opening, transferring and using product NCI ose drum bungs tightly when not in use. Spill-leak procedures and additional handling information are contained in the Material Safety Data Sheet.
