**Notification per PR Notice 98-10**

Dear Mr. Swindell:

On behalf of International Specialty Products ("ISP"), I am submitting an application for pesticide notification to add a specific use rate for the application of **Nuosept 495 Preservative (EPA Reg. No. 1529-34)** in pesticide formulations. I'm also taking this opportunity to make some minor label revisions to the product's label.

Please note that the proposed use rate falls within the general use rates already specified on the label. Furthermore, the Agency has already approved the use of this product in pesticide formulations. As a result, the proposed label changes do not affect the dosages, concentrations, or use patterns that the Agency has already approved for this product and as such, should qualify to be reviewed as a notification.

In support this notification, I am submitting the following documents for your review:

1. Application for Pesticide Notification (OPP ID No. 265394), which includes a signed statement certifying compliance with PR Notice 98-10;
2. One (1) copy of the proposed product label with the changes highlighted; and,
3. One (1) clean copy of the proposed product label.

Thank you in advance for your assistance with this notification. If you have any questions, please call me at (973) 628-4109 or e-mail me at [SKhattar@ispcorp.com](mailto:SKhattar@ispcorp.com).

Sincerely,
