APR 17 2009

Subject: Notification(s) for Label Revisions under PRN 2007-4

Dear Ms. Chartier:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notices (PRN) 2007-4 dated March 24, 2009 for:

EPA Registration 1543-10

Absorbine Flys-X Ready-to-Use Insecticide

The Registration Division (RD) has conducted a review of the request(s) for applicability under 2007-4 and finds that the label changes requested fall within the scope of 2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identify the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Nicole Williams of my staff at 703-308-5551.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

The Horse World's Most Trusted Name®

READ ENTIRE LABEL BEFORE EACH USE

USE ONLY ON HORSES, PONIES AND DOGS

EFFECTIVE, FAST-ACTING, READY TO USE INSECTICIDE.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

HORSE AND LIVESTOCK SPRAY

Effective, fast acting, ready to use insecticide. Apply with conventional sprayers or a cloth. To protect cattle and horses from horn flies, house flies, mosquitoes and gnats, apply a light mist sufficient to wet the surface of the hair. To kill stable flies, horse flies, and deer flies, apply at a rate of 2-4 ounces per adult animal sufficient to wet the hair thoroughly. Repeat treatment daily or at intervals necessary to give continued protection. To kill face flies, apply with a cloth dampened with the spray. To kill blood sucking lice, apply to the infested areas of the animal. Use a stiff brush to get the spray to the base of the hair. Repeat every 2-3 weeks if required.

DOG AND FOAL INSECTICIDE USE

To kill fleas and brown dog ticks on premises and on dogs. Effective, fast-acting insecticide.

Surface spraying: Remove dogs prior to treatment. Thoroughly spray infested areas, pet beds, resting quarters, nearby cracks and crevices, along and behind baseboards, mouldings, window and door frames and entire areas of floor covering. Fresh bedding should be placed in animal quarters following treatment. Allow treated surfaces to thoroughly dry before permitting dogs to reoccupy.

On Dogs and Foals: Start spraying at the tail, moving the dispenser rapidly and making sure the animal's entire body is covered including the legs and under body. While spraying, fluff the hair so spray will penetrate to the skin. Do not spray into eyes or face. Avoid contact with eyes and genitalia. Sensitivities may occur after using ANY pesticide product on pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals or animals on medication. During the flea season, retreat weekly if necessary. Do not use on foals or puppies under 12 weeks.

HOUSEHOLD SPRAY

Effective fast acting ready to use spray for use in homes. Leaves no oily or objectionable residues.

Remove pets, birds, and cover fish aquariums before spraying.

Indoor Application: Use of this product in food processing areas should be limited to periods when the kitchen is not in operation. Food should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before use. Vacate areas and ventilate before reoccupying. For maximum results, a combination of spot treatment and surface spray is recommended.

Surface Spraying: To kill cockroaches, palmetto bugs, ants, silverfish, spiders, crickets, clover mites, cheese mites, granary weevils, confused flour beetles, spider beetles, cigarette beetles, drugstore beetles, meal worms, grain mites and caddises. Adjust sprayer to a coarse wet spray. Direct the spray into hiding places, cracks and crevices, around containers of stored foods, behind shelves and drawers. For silverfish, spray bookcases. For ants, spray trails, nests and points of entry. If surface application only is to be used, spray floors and other surfaces at the rate of 1 gallon to 750 square feet of area. Repeat application no less than 1 week if necessary.
