NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(B) provided that you:

1. Submit/submit all data or other information required for registration/reregistration of your product under FIFRA section 3(c)(5) or FIFRA section 3(c)(7)(C), upon request, to the U.S. Environmental Protection Agency, Office of Pesticide Programs, Washington, DC 20460.
2. Make the labeling changes listed below before you release the product for sale:
 - a. Change the product name to "abso rbine 1543-12."
 - b. Labeling statements may need revision upon receipt of an acceptance of acute toxicity study for the active ingredient.
 - c. Delete the term "Ultra" in the product name. Words or phrases implying a higher quality, superior, or better than other products because of its composition are not acceptable.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL *[Signature]* DATE *September 11, 1991*

d. Either delete or explain the term "Absorbine" in the product name. It implies that the product is absorbed through the skin which would make it an animal drug subject to regulation by FDA.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Ready to use. No mixing necessary. This water-base formulation may be applied directly with trigger spray applicator or as a wipe-on.

Kills fleas, ticks and lice on dogs. Also repels and controls house flies, stable flies, horn flies, face flies, horse flies, deer flies, mosquitoes and gnats on horses. Kills fleas and ticks around premises. Repels flies, mosquitoes and gnats for 3-5 days on horses.

DOGS

Cover animals eyes with hands. With a firm stroke to get a proper spray mist, spray head, ears and chest until damp. With fingertips, rub into face around mouth, nose, and eyes. Then spray neck, middle and hind quarters, finishing legs last. For best penetration of spray to the skin, direct spray against natural lay of the hair. On long haired dogs rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat treatment as needed. Controls fleas, ticks and lice on dogs and provides up to 28 days protection from reinfestation.

DOGS SLEEPING QUARTERS

Spray around baseboards, windows, door frames, wall cracks and local area of floors. Repeat as needed. The pet's bedding area should be sprayed. Spray old bedding or replace with fresh bedding.

HORSES AND PONIES

USE AS A WIPE ON: First, brush animal to remove excess dirt and dust. Moisten (but do not wet to the point of dripping) a soft cloth and rub over the hair. It is best to apply by rubbing against the hair growth. Give special attention to the legs, shoulders, shanks, neck and facial areas where flies most often are seen. Only a light application is required. Avoid using an excessive amount on your horses. Do not wet skin. After application, brush thoroughly to bring out bright sheen on the coat. Repeat as required.

USE AS A SPRAY: Apply to face, legs, flanks, top line and other body areas commonly attacked by flies. Do not wet horse's skin or exceed two ounces per application. After application, brush thoroughly to bring out bright sheen on the coat. Repeat treatment as needed.
