USE AS A WIPE OR A SPRAY: This product may be applied either as a wipe or as a spray. When applying as a wipe, or on the horse's face, always use a soft cloth. First brush animal to remove excess dirt and dust. Spray or wipe horse's entire body while brushing against the lay of the coat to ensure adequate coverage. Avoid getting spray into horse's eyes, nose or mouth. Do not wet skin, or apply to the point of dripping or exceed two ounces per application. Reapply every 7 to 10 days under normal conditions for initial applications. As protection builds, reapply every 12 to 17 days as needed. Also, reapply each time animal is washed or exposed to heavy rain for best results. After application, brush thoroughly to bring out bright sheen on the coat.

USE AS A ROLL ON: Remove cap from bottle. Apply around horses's and poney's nose, eyes, ears and mouth. May also be used as a spot treatment on areas where flies gather. Avoid direct application to eyes, nose and mouth. Replace cap after use. For initial treatment apply daily for 2 to 3 days.
