MOTH BALLS

**FULL STRENGTH NAPHTHALENE MOTH BALLS**

**KILLS CLOTHES MOTHS AND LARVAE**

**How to Protect Clothing, Woolens and Furs**

1. Moths protect any garment in a plastic bag or woolen garment bag.
2. Dry clean, wash or treat articles that require special care.
3. Store these articles in a clean, airtight garment bag or cedar chest.
4. Use 1 ball for each 100 cu. ft. of storage space. Place at the top of the container because fumes are heavier than air. Do not open for at least 7 days. If storage space is opened, replace missing moth balls and keep container airtight for at least 7 days.
5. Moths are active the year around. Use 1 moth ball in the enclosure at least 2 times a year.
6. When removing articles from storage, wash and hang in warm, draft-free air.
7. Do not use this product with other moth repellents. Store away from heat, and avoid contact with food, medicine, and toys.

**DO NOT REUSE CONTAINER. DESTROY WHEN EMPTY**

Manufactured by CURRAN, Inc., New York, N.Y.

E.P.A. No. 1544-05
