## POULTRY PROCESSORS INSECTICIDE

FOR USE IN POULTRY PROCESSING PLANTS

ACTIVE INGREDIENTS: 100%

Petroleum Distillate, Technical Piperonyl Butoxide Consists of (Butylcarbityl)  
(6-Propylpiperonyl) Ether and Other Related Compounds, Pyrethrins.

### DIRECTIONS

Inside spraying around equipment or processing machinery, use hand operated spray gun or electric fogging equipment, kills roaches, ants, flies, mosquitoes, water bugs. Wherever possible, close all doors and windows in area before spraying. Always spraying toward ceiling. Fill the area with a spray using 1 1/2 oz. MOMAR POULTRY PROCESSORS INSECTICIDE per 1,000 cubic feet of space. For roaches, be sure to direct some spray into cracks and crevices.

CAUTION: Prior to the use of MOMAR POULTRY PROCESSORS INSECTICIDE in the edible section of the plant, all carcasses, etc. must be removed. At the completion of the spraying operation, a thorough wash-down of the section and equipment and processing machinery is required before processing may continue. In non-edible section, spraying should be done as described above. No wash-down is required in non-edible sections after spraying.

**CAUTION:** Keep out of reach of children.

Harmful if swallowed. Avoid contamination of feed and food stuffs. Do not store near heat or flame.
