

MOMAR

HYPO DISINFECTANT

A SODIUM HYPOCHLORITE SOLUTION

ACTIVE INGREDIENTS: SODIUM HYPOCHLORITE	5%
INERT INGREDIENTS	95%
TOTAL	100%

DIRECTIONS

For general disinfection it is first necessary to thoroughly clean and remove all filth and dirt from the surfaces to be disinfected. Make a solution using 4 fluid ounces of MOMAR HYPO DISINFECTANT to the gallon of water (2 tablespoonfuls approximately equal to 1 ounce). Use this solution and thoroughly wet all surfaces to be disinfected. Allow the solution to remain on the surface for 3 to 5 minutes. Mix the solution as needed in a stone crock, rubber or glass container or enamel ware bucket.

Keep this bottle closed and stored in a cool, dark place when not in use. Harmful if swallowed. Prolonged contact may cause skin irritation.

CAUTION: Keep out of reach of children
