Mycobacterium tuberculosis varbovis BCG

Use on the following surfaces: walls, floors, cabinets, hospital fixtures, operating rooms, sick rooms, sanatoriums, contagious disease areas, schools, office buildings, wash rooms, factories, restaurants, institutions, nursing homes and food processing plants.

Active Ingredients48.07%
Potassium Ortho-phenylphenate
Potassium Ortho-benzyl-para-chlorophenate
Isopropanol
Potassium Soap
Sodium (dodecyl benzene) sulfonate
Tetrasodium ethylenediaminetetraacetate
Potassium-tertiary-amylphenate
Sodium Xylene Sulfonate
Inert Ingredients51.93%
Water
Sodium N-decyl diphenylether disulfonate

WARNING: KEEP OUT OF REACH OF CHILDREN — See other panel for additional warning statement.

A.O.A.C. Use Dilution Confirmation Tests

Pseudomonas Aeruginosa PRD-10, no. 15442 1:256
Salmonella Choleraesuis ATCC no. 1078 1:256
Staphylococcus Aureus ATCC no. 6538 1:256
Trichophyton interdigitale A.O.A.C. Fungicidal Method 1:735
Mycobacterium tuberculosis var bovis BCG 1:200

The above test results verify that Momar Fen-O-Cide has been shown to be effective, when used as directed, as tested by official AOAC test procedures.

DIRECTIONS: For general cleaning, disinfecting and deodorizing in one operation, dilute Momar Fen-O-Cide 1 part to 256 parts water (approximately 1 ounce to 2 gallons of water). Apply this solution to the surface to be cleaned and scrub with a brush, mop or damp cloth and let this solution remain on the surface for several minutes. Remove and rinse with clear water except where bacteriostatic activity is desired. Treated surfaces which may subsequently come in contact with food or food products must be thoroughly rinsed with potable water before reuse.

WARNING: Harmful if swallowed. Disinfectant may cause skin and severe eye irritation. Avoid contact of concentrate with skin and eyes. In case of contact with skin, flush with plenty of water — for eyes flush thoroughly with water for 15 minutes and get medical attention. If swallowed, give raw egg white, milk mucilage or cornstarch paste and follow with emetic of mustard. Call a physician. Rinse empty container thoroughly with water and discard it. Avoid contamination of foods.

WARNING: Harmful if swallowed. Disinfectant may cause skin and severe eye irritation. Avoid contact of concentrate with skin and eyes. In case of contact with skin, flush with plenty of water - for eyes flush thoroughly with water for 15 minutes and get medical attention. If swallowed, give raw egg white, milk, mucilage or cornstarch paste and follow with emetic of mustard. Call a physician. Avoid contamination of foods.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL

STORAGE: If contents are spilled or leaked due to container damage, collect liquid with absorbent material and dispose of in accordance with local, state and federal pesticide disposal regulations.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Metal containers - Triple rinse for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Plastic containers - Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
