MOMAR

TOM'S INSECTICIDE A PYRENONE PRODUCT

ACTIVE INGREDIENTS 100%

Deodorized petroleum distillate	96.7%
Technical Piperonyl Butoxide*	3.0%
Pyrethrins	0.3%

*Equivalent to 2.4% (butylcarbityl) (6-propylpiperonyl) ether and 0.6% related compounds.

A Powerful Contact Type Spray

Momar Tom's Insecticide has been developed for use in controlling accessible mill insects in grain elevators, flour mills, rice mills, macaroni plants, grocery warehouses, peanut plants, bakeries, candy factories and many other similar places. Momar Tom's Insecticide, when used as directed, kills flour beetles, rice weevils, Indian meal moths and saw tooth grain beetles.

Beetles, moths and weevils can breed in corners, nooks, crevices and other similar places. All such places as well as floors, walls, rafters, aisles, around windows, round and about and under milling machinery should be thoroughly sprayed so as to contact all insects possible. It is better to spray Momar Tom's Insecticide in the late afternoon so that all windows, doors and other openings may be left closed for the longest period of time. The rooms should be sprayed liberally, preferably using an electric sprayer. Direct sprayer toward ceiling and in all directions so as to completely fill each room with the fine mist-like vapor of Momar Tom's Insecticide. Insects must either be contacted with the spray or completely enveloped in its mist-like vapor in order to produce satisfactory kill.

Cleanliness will greatly aid in reducing insect infestation, therefore frequently sweep dust and dirt off walls, rafters and machinery. Always pound elevator legs so that dirt and refuse will drop into the boot and then thoroughly clean out the boot. Repeat these treatments as often as necessary.

CAUTION: Keep out of reach of children.

Harmful if swallowed. Do not remain in treated areas. Ventilate the area after treatment is completed. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment, or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.

WARNING

FLAMMABLE MIXTURE. DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies. Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place away from water supplies.
