MOMAR

BEN-GONE

READY TO USE RODENTICIDE

ACTIVE INGREDIENT	0.005%
2 [(p-chlorophenyl) propylacetyl] 1,3 indandione*	
INERT INGREDIENTS	99.995%
TOTAL	100.000%

*Chlorophacinone — Liphadione patented in U.S.A.

DIRECTIONS

Place a minimum of 4 ounces of Momar Ben-Gone in locations not accessible to children, in places where rodents are known to travel, feed or water. Maintain an uninterrupted supply of Momar Ben-Gone at these points for at least ten consecutive days. Bait placements along walls, in corners and in concealed locations where rats and mice can feed unobserved are desirable. Contaminated or spoiled baits should be replaced promptly.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Keep away from humans, domestic animals and pets. If swallowed or absorbed by humans, domestic animals or pets, this material may reduce the clotting ability of the blood and cause bleeding. In that case, intravenous and oral administration of Vitamin K combined with blood transfusions are indicated as in the case of hemorrhage caused by overdoses of bishydroxycoumarin. Call a physician immediately. Baits should be placed in areas not accessible to children, pets, wildlife and domestic animals or in tamper-proof bait boxes. Keep away from foodstuffs.

Treated baits should be placed in locations not accessible to children, pets, wildlife and domestic animals or in tamper-proof bait boxes.

Do not reuse empty container. Destroy when empty.

Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.
