

**PRECAUTIONARY
STATEMENTS
HAZARDS TO
HUMANS
CAUTION**

Harmful if swallowed. Avoid breathing vapor. Avoid contact with skin, eyes, or clothing. Wear mask or respirator of type recommended by NIOSH (National Institute for Occupational Safety and Health) to give adequate protection against this material. Wear protective clothing. Wash exposed skin with soap and water after handling and from other clothing, before re-use.

Do not apply directly to food in commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is underway. After space spraying in food processing plants, wash all equipment, benches, shelving, etc., where exposed food will be handled, with potable water.

Do not apply to animals. It is not intended for human consumption.

FIRST AID

In case of contact, immediately flush skin and eyes with plenty of water. For skin and eyes, call a physician. If swallowed, do not induce vomiting. Call a physician at once. Have patient drink a glass of water.

**ENVIRONMENTAL
HAZARDS**

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of water.

**PHYSICAL OR
CHEMICAL HAZARDS**

Extinguish open flame before space spraying. This formulation is combustible. DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

IMPERIAL III

**3% MULTIPURPOSE SPRAY
FOR INDOOR USE IN ULV,
MECHANICAL MISTING SPRAYERS,
OR THERMAL FOGGERS**

FOR SCHOOLS, STORES, INSTITUTIONS, RESTAURANTS, FOOD PROCESSING PLANTS, WAREHOUSES, INDUSTRIAL INSTALLATIONS, AND HORSE STABLES.

ACTIVE INGREDIENTS:

*+Resmethrin ([5-(phenylmethyl)-3-furanyl] methyl 2,2-dimethyl-3-(2-methyl-1-propenyl) cyclopropanecarboxylate)

3.00%w/w

INERT INGREDIENTS

97.00%

TOTAL

100.00%w/w

*Cis:trans isomers ratio: max. 30% (±) cis and min. 70% (+) trans.

+ U.S. Patent Nos. 3,485,007 and 3,542,928.

*Penick's SBP-1362(R) brand of resmethrin insecticide.

Penick Corporation, 1050 Wall Street West, Lyndhurst, N.J. 07071

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**STORAGE AND
DISPOSAL**

**DO NOT CONTAMINATE WATER, FOOD,
OR FEED BY STORAGE OR DISPOSAL.**

STORAGE: If contents are spilled or leaked due to container damage, collect liquid with absorbent material and dispose of in accordance with local, state and federal pesticide disposal regulations.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Metal containers — Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Plastic containers — Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

This concentrate is designed for use undiluted in ULV sprayers such as the Momar ULV which give particles of aerosol size. It can also be diluted with oils which meet Food Additive Regulation (21 CFR 172.884) for use in mechanical fogging equipment such as the Momar Hand-Mister or Challenger machines which give larger particles. It can also be diluted with oil as specified and applied as a contact spray.

For use in ULV mechanical aerosol generators such as the Momar ULV. Apply undiluted at the rate of 0.5 fl. oz. (14.8 ml) of concentrate per 1,000 cubic feet (28.3 cubic meters) of space. Direct output from aerosol generator upward toward upper corners of room and ceiling.

Extinguish all flames in the area to be treated. Shut off all air conditioning or ventilating equipment.

Vacate room before application, leave closed for one hour after spraying. Ventilate room thoroughly before re-entry.

SPACE SPRAY: To kill adult and accessible stages of insect pests of stored foods: grain weevils, flour beetles, saw-toothed grain beetles, cigarette beetles, Angoumois grain moths, Mediterranean flour moths, Indian meal moths, grain mites, carpet beetles, and spider beetles. Direct output into corners, under pallets hitting as many of the insects as possible, and then treat as a space spray upward toward upper corners of room and ceiling.

CONTACT SPRAY: Use undiluted to kill roaches, silverfish, earwigs, ants, spiders, fleas, crickets, centipedes, sowbugs, millipedes, carpet beetles. Apply the spray as coarse wet spray into all cracks and crevices in woodwork, walls, floors, beneath sinks and other insect harborage, contacting as many insects as possible.

TO KILL FLEAS: Hold spray nozzle about 18 inches from areas to be treated. Direct spray on resting areas and floor around these areas. Apply spray until area is moist. Treat pet bedding the same way. Also spray entire inside surface of dog houses. Repeat as necessary. Do not allow pets to contact treated areas until spray has dried. Remove or cover animal feed before spraying. Also, treat dogs, cats and horses with a registered flea control product before they re-enter treated area (such as Imperial I or XX) for the direct application of dogs and cats.)

TO KILL WASPS AND HORNETS: Contact application should be made in late evening when insects are at rest. Spray liberally into hiding and nesting places, contacting as many insects as possible. Repeat as necessary.

For mechanical misting equipment such as the Momar Hand-Mister or Challenger Machine: **Diluting Instructions:** Dilute to 0.5% Imperial III by adding 1 fl. oz. (29.6 ml) of the 3.0% concentrate to 11 fl. oz. (325 ml) of petroleum distillate. Dilute to 0.10% Imperial III (which would be used for flying insects only) by adding 1 fl. oz. (29.6 ml) of the 3.0% concentrate to 29 fl. oz. (858 ml) of petroleum distillate.

For most effective results against flying insects, operate spraying dispenser adjusted to deliver a fine mist. For flying insects, use either 0.10% or 0.25% Imperial III.

TO KILL HOUSEFLIES, MOSQUITOES, GNATS, WASPS, HORNETS AND SMALL FLYING MOTHS: Close all doors and windows. Point nozzle upward, direct the spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room before re-entry. Repeat as necessary.
