DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Prepare sanitizing solutions with warm water. Allow several minutes for tablets to dissolve before using.
For Sanitizing Dishes, Glasses and Utensils in Restaurants, Taverns, etc.
1. Scrape and prewash utensils or glasses whenever possible.
2. Wash with a good detergent or commercial cleaner in 1-2 gal. hot water.
3. Rinse with clean water in second sink compartment.
4. Sanitize in a solution of 1 tablet per 1½ gallons of water (200 ppm) in third sink compartment. Immerse all utensils for at least four minutes or for contact time specified by governing sanitary code.
5. Place sanitized utensils on a rack or drain board to air dry.
6. A fresh sanitizing solution must be prepared at least daily or more often if the solution becomes cloudy or soiled.

For Sanitizing Food Processing Equipment, Dairy Equipment, Sinks, Countertops, Refrigerated Storage and Display Equipment and other hard non-porous food contact articles and surfaces.

1. Wash and Rinse all articles and surfaces thoroughly.
2. Apply a solution (Spray On or Wipe On) of 200 ppm concentration and allow surface to remain wet for at least one minute followed by adequate draining and air drying.

KILLS HIV-1 (AIDS Virus) when used as directed for sanitizing.

**MICROBISTATIC
HUMIDIFIER WATER TREATMENT
TABLETS**

To control ODOR CAUSING and SLIME FORMING BACTERIAL/ALGAE GROWTH in all manually filled EVAPORATIVE CONSOLE TYPE and PAPER FILTER TYPE HUMIDIFIERS. Not for use in Heat Vaporizing, Atomizing or Ultrasonic type Humidifiers.

Start with a clean humidifier tank and filter.

Initially, add 1 tablet per every 4 gallons of water in humidifier tank. Thereafter, add 1 tablet per every 8 gallons of refill water added to tank. Tablets are effervescent and will dissolve completely.

For best results, avoid using more tablets than required. Rinse residual deposits from tank periodically. Clean your humidifier thoroughly every 4 weeks.

Do not use this product in heat vaporizing, atomizing or ultrasonic humidifiers.

**BACTERISTATIC
WATERBED CONDITIONER
TABLETS**

To control the growth of odor causing and slime forming Bacteria/Algae in waterbed mattresses.

DOSAGE: To control the growth of odor causing and slime forming Bacteria/Algae in waterbed mattresses.

Add one (1) tablet for every 20 gallons of waterbed mattress capacity.

In a twin size waterbed mattress of 90 to 100 gallons capacity, use 5 tablets.

In a waterbed mattress of 160 to 200 gallons capacity, use 10 tablets.

Repeat this application of tablets at 4 to 6 months intervals to maintain the control of Bacterial and Slime Growth in waterbed mattresses.
