UNDER THE FEDERAL INSECTICIDE FUNGICIDE AND RODENTICIDE ACT FOR ECONOMIC POISON REGISTERED UNDER NO.

DIRECTIONS FOR USE

GARMENTS OR BLANKETS: Wash or dry clean before storing. Use PERFUMED CRYSTALS generously and store articles in tightly closed space. Sprinkle PERFUMED CRYSTALS freely on woolen articles.

If garments or blankets are made of synthetic materials or have very delicate colors, fold crystals in sheets of tissue paper between layers of articles in drawers or in trunks.

Fumes are heavier than air, so place crystals near top of storage area. Spread crystals in shallow container (such as shoe box top, inexpensive pie plate, or improvised tray of metal foil).

Do not allow crystals to come in contact with plastic buttons or vinyl plastic film. Do not use with plastic coat hangers or wire coat hangers which are chipped or unpainted.

For clothes moths and carpet beetles, use the contents of this can to each 120 cubic feet of tightly closed space.

The crystals melt at about 125°F. Do not allow melted crystals to drip on garments, furniture, or floors.

RUGS AND UPHOLSTERED FURNITURE: Thoroughly brush or vacuum. Remove food particles and stains. Sprinkle rugs and upholstered furniture, in crevices between cushions, sides and back, liberally with the crystals and wrap tightly in heavy kraft paper for at least 72 hours. If articles are to be stored, leave wrappings on until articles are taken out of storage. Do not allow crystals to come in contact with plastic or synthetic materials, floors, or hard-surfaced floor coverings, such as asphalt tile.

FOR MILDEW: To help prevent mildew on clothing; jackets; leather articles, such as shoes, luggage, golf equipment; papers and books, store the articles in a tightly closed space with PERFUMED CRYSTALS. When treated space is opened or unsealed, add more PERFUMED CRYSTALS. Follow the directions above for clothes moths and carpet beetles.

For mildew, use the contents of the can to each 120 cubic feet of tightly enclosed space. Sprinkle a few PERFUMED CRYSTALS in laundry hamper to mask or neutralize musty odors.

CAUTION: Avoid prolonged inhaling of fumes. Avoid contact with skin and eyes. Replace cover to prevent evaporation.

Do not reuse container. Destroy when empty.
