DIRECTIONS

For maximum effectiveness, test swimming pools for algae growth before using DEFIANE ALGAECIDE NF.

For pools having a volume of water up to 115,000 gal., add 27 lb. of DEFIANE ALGAECIDE NF per 10,000 gal. of water.

To maintain pools free of algae growth, subsequent additions of 12 1/2 to 27 lb. of DEFIANE ALGAECIDE NF per 10,000 gal. of water should be made every 5 to 7 days after the treatment.

Uniform distribution of DEFIANE ALGAECIDE NF throughout the pool is necessary for maximum effectiveness.

DEFIANE ALGAECIDE NF is a powerful oxidizer with these chemicals may be used to treat pools and is effective against both red and green algae. DEFIANE ALGAECIDE NF can be used in pools with high chlorine levels and may reduce the amount of chlorine normally required. However, use of DEFIANE ALGAECIDE NF will concentrate dry chlorine on the pool.

ALGAECIDE NF

DEFIANE ALGAECIDE NF is used to control the growth of algae in swimming pools.

CAUTION
KEEP OUT OF REACH OF CHILDREN

EMAPA Compound Company
147 ORANGE ST. Boston

CAUTION

Do not get in eyes. Avoid contact with skin. In case of contact with eyes, flush with plenty of water for 15 to 20 minutes. Get medical attention if irritation persists. Avoid contact with skin.

Prevent contact with fish. Thoroughly wash hands and clothing after use. Do not use in fish treated plants. Do not use in lighted areas where it will be visible. Do not use in public pools or bath houses. Use this product only as specified on the label.
