DIRECTIONS FOR USE

PEANUTS — For the control of Cercospora Leaf Spot and as an aid in correcting boron deficiency, apply 20 pounds of dust per acre by power driven ground applicator or aircraft. Apply when disease spots first appear on old leaves at the base of the plants. Make only one application per season. Apply only when foliage is dry. If applied when foliage is wet, severe burning may occur.

Do not feed treated forage to dairy animals or animals being finished for slaughter.

CAUTION: Use of this material in a manner or at a time other than in accordance with directions may produce plant injury, excessive residues or other undesirable results.

Dispose of waste by burying in a pit in non-crop lands located away from water supplies. Dispose of empty bags in the same manner or by burning. If burned, keep out of smoke.

NOTICE

Follow directions carefully. Timing and method of application, weather and crop conditions and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given on this label.
