

IN HOUSE CLEANING

Bleach is a very effective household disinfectant. Regular use of bleach in house cleaning can provide an added measure of protection to the whole family. Used as directed, bleach meets U.S. Public Health Service recommendations as a disinfecting solution.

TO DISINFECT, DEODORIZE AND REMOVE STAINS from:

Bathtubs	Refrigerators	Glassware	Tile
Showers	Stoves	Teapots	Plastic
Sinks	Drainboards	Windows	Marble
Dishes	Enamelware	Woodwork	Porcelain

Wash, then wipe with solution of 3 tbsp. bleach to each quart of warm water. Rinse and dry. (If stubborn stains persist, keep wet for 5 minutes with bleach solution. Repeat if necessary.) Do not use on silver, aluminum, steel, chipped enamelware.

TOILET BOWLS: Cleanse, flush. Pour in ½ cup bleach; swish solution over inside. Let stand 10 minutes; flush. (Do not use toilet bowl cleaners with bleach. See Caution Statement.)

SICKROOM EQUIPMENT: To disinfect, deodorize and remove stains—wash thoroughly; soak 5 minutes in solution of 3 tbsp. bleach to each quart hot water; rinse, drain dry.

DIRECTIONS FOR SANITIZING EATING AND DRINKING UTENSILS

1. Scrape and prewash utensils and glasses whenever possible
2. Wash with a good detergent or compatible cleaner.
3. Rinse with clean water.
4. Sanitize in solution of 1 oz. to 2 gallons of water (200 P.P.M.) Immerse all utensils for at least two minutes or for contact time specified by governing sanitary code. Place sanitized utensils on a rack or drainboard to air dry.
