MILS PREPARATION AND
1734 E. 60th ST.

HOW TO USE

Open plastic container by pressing on side where indicated. Snap open cover. Fold out the hang-up hook.

Remove the cakes from container, discard all protective wrappings, and replace cakes. Close lid. Snap shut. Hang on rod or hook high in closet, to insure the most effective vapor distribution. Convenient hook locks on rod by pushing tab into hole.

Refill with NO-MOTH REFILL CAKES when needed.

DIRECTIONS

Before storing clothes should be cleaned or thoroughly brushed and aired in the sun. Keep closet door tightly closed for about a week after use of this chemical. At a time when only when necessary, that vapor may remain concentrated. If needed, add additional chemical as directed on package.

Sealed container protects people. Do not use confined space. Do not use in a room with a window or door open. Do not use in a bathroom, kitchen, or bedroom.

CAUTION: Do not use with any type of plastic or vinyl. Do not use with any type of fabric that may liquify. Do not use with No-Moth with a metal or plastic component.

MOTH LARVAE

REEFER-GALLER, INC. • NEW YORK, N. Y. 10022
USDA REG NO 1603-8

ACTIVE INGREDIENTS: PARADICHLOROBENZENE 100%
D I R E C T I O N S

REFILL

IMPORTANT • Clothing to be stored should be cleaned or thoroughly brushed and aired in the sun.

CLEAN • CONVENIENT • STAINLESS

Depending upon temperature, tightness and size of storage closet, **NO•MOTH** should last about two months. **NO•MOTH** does not cling; clothing may be worn immediately. When Refill contents are about one-half evaporated, fill Container from new **NO•MOTH** Refill.

REFILL

1. Remove all the "foil cellophane" and the cardboard wrapper from this package. 2. Attach special hook to container, where indicated by arrow. 3. Be sure to place all cakes in **NO MOTH** container. 4. Hang **NO-MOTH** on clothes rod or on clothes hook or place it on upper storage closet shelf. Keep door tightly closed. Open only when necessary so vapors may remain concentrated. At all times and for about a week after use of chemical if opened, add additional chemical and close for period specified. Gives protection against moths in storage closets up to 85 cubic feet. In larger storage closets, use extra **NO-MOTH** containers proportionately. Use only **NO-MOTH** Refill Cakes (in the **NO-MOTH** Container) as other chemicals may cause them to liquefy. Do not use with incompatible plastics such as styrene hangers and boxes.
