**CARPETS AND RUGS** should be thoroughly swept and cleaned on both sides. Use a vacuum cleaner. Expose carpets to sunlight then spray extra well on both sides and while still damp they should be rolled up in news paper and tied. Carpets in use should be thoroughly sprayed twice a month.

**ARTICLES TO BE PACKED AWAY** thoroughly brush and clean then spray well on both sides and into seams and folds. Pack in airtight plastic or chests which have been treated with SLA.

**IMPORTANT!** Be sure to use a separate plastic bag for each article to prevent the spray from spreading. Do not use SLA on silk, wool, or other delicate fabrics. Do not use SLA on any porous surface. Do the same with pile fabrics. The partial misting may affect the nap.

**FLYING MOTHS, FLIES, MOSQUITOES, GNATS, HORNETS AND WASPS**
