kills moths

and certain other insects

EFFECTIVE PLEASANT STAINLESS

CAUTION

Avoid inhalation. Do not spray directly on humans. In case of contact, wash off with soap and water. Do not spray on food or food utensils. Do not smoke while spraying. Rinse empty container thoroughly with water and discard it. Do not remain in treated areas and ventilate the area after treatment is completed.

Remove pets, bird cages and fish bowls from spraying area. Do not spray directly on plastic, asphalt, tile, vegetation or anything affected by petroleum distillates.

ACCEPTED

MAR 2 1972

UNDER THE FEDERAL INSECTICIDE AND FUNGICIDE ACT AND REGULATIONS FOR ECONOMIC PEST CONTROL UNDER AUTHORITY OF THE FEDERAL GOVERNMENT

1603-28

EPA REG. NO. 1603-28

100% ACTIVE INGREDIENTS

pyrethrins	0.075%
technical piperyonyl butoxide*	0.150%
N-octyl bicycloheptene dicarboximide**	0.250%
essential cedar oils	0.500%
petroleum distillates	99.025%
	100.00%

*Equivalent to 0.120% of (butylcarbityl) (6-propylciperonyl) ether and 0.030% of related compounds.
**U.S. Patent No. 2,476,512

CAUTION: KEEP OUT OF REACH OF CHILDREN
Harmful if swallowed. SEE OTHER PRECAUTIONS ON BACK PANELS

64 FL. OZ. (1/2 GAL.)

CEDAR SCENTED SPRAY

CAUTION: COMBUSTIBLE MIXTURE
N.Y. F.D. Certificate of Approval No. 573
DO NOT USE NEAR FIRE OR FLAME.
Contains petroleum distillates. Harmful
if swallowed. Call a physician.

DIRECTIONS

For Use With Sprayers

MOTHS, CARPET BEETLES, THEIR EGGS AND LARVAE, CLOTHING, DRAPERIES, BLANKETS, ETC. should be well brushed, cleaned and if possible exposed to sunlight. Spray thoroughly on both sides and into seams and folds. Spray monthly unless stored in tight containers. Clean and spray closets, especially cracks.

CARPETS AND RUGS should be thoroughly swept and cleaned on both sides. Use a vacuum cleaner. Expose carpets to sunlight. Then spray well on both sides and while still damp they should be rolled up in a newspaper and tied. Carpets in use should be thoroughly sprayed about twice a month.

ARTICLES TO BE PACKED AWAY: Thoroughly brush and clean. Then spray well on both sides and into seams and folds. Pack in air-tight trunks or chests which have been cleaned and SLA sprayed.

IMPORTANT: Be sure to remove grease spots. Spray from two feet away. Some dyes are not colorfast under any conditions, so test SLA on an inconspicuous portion. Do the same with pile fabrics since partial moistening may affect the nap.

FLYING MOTHS, FLIES, MOSQUITOES, GNATS, HORNETS AND WASPS: For best results, close all doors and windows before spraying. Stand in center of room and spray above you in all directions, then leave room and close door. After fifteen minutes, doors and windows may be opened.

ANTS, ROACHES, SILVERFISH AND OTHER CRAWLING INSECTS: Spray directly on insects when possible and into cracks, crevices, around sinks, drains and pipes, stoves, cupboards and all places where insects may hide. Spray ant trails and around doors and windows.

BEDBUGS: Spray insects directly. Thorough and repeated treatment of beds, mattresses, baseboards, floor and wall cracks should be made. Spray from two feet away.

INDOORS: Do not remain in treated areas and ventilate the area after treatment is completed.

OUT-OF-DOORS: Spray barbecue pits and patio areas wherever insects are present. (Do not spray while fire is lit.) Spray garbage cans inside and out.

In all cases repeat treatment as often as necessary.

- EFFECTIVE
- PLEASANT
- STAINLESS

CAUTION

Avoid inhalation. Do not spray directly on humans. In case of contact, wash off with soap and water. Do not spray on food or food utensils. Do not smoke while spraying. Rinse empty container thoroughly with water and discard it. Do not remain in treated areas and ventilate the area after treatment is completed.

Remove pets, bird cages and fish bowls from spraying area. Do not spray directly on plastics, asphalt, etc., vegetation or any thing affected by petroleum distillates.
