MOTH LARVAE

GALREE PRODUCTS CO., INC. • NEW YORK, N. Y. 10022

ACTIVE INGREDIENTS: PARADICHLOROBENZENE 100%
D I R E C T I O N S

REFILL

IMPORTANT • Clothing to be stored should be cleaned or thoroughly brushed and aired in the sun.

CLEAN • CONVENIENT • STAINLESS

Depending upon temperature, tightness and size of storage closet, **MOTHINE** should last about two months. **MOTHINE** does not cling to clothing and may be worn immediately. When Refill contents are about one-half evaporated, fill Container from new **MOTHINE** Refill.

1. Remove all the "foil cellophane" and the cardboard wrapper from this package.
2. Attach special hook to Container, where indicated by arrow.
3. Be sure to place all cakes in **MOTHINE** Container.
4. Hang **MOTHINE** on clothes rod or on clothes hook or place it on upper storage shelf. Keep door tightly closed. Open only when necessary, so vapors may remain concentrated. At all times and for about a week after use of chemical if opened, add additional chemical and close for period specified. Gives protection against moths in storage closets up to 85 cubic feet. In larger storage closets, use extra **MOTHINE** Containers proportionately. Use only **MOTHINE** Refill Cakes (in the **MOTHINE** Container) as other chemicals may cause them to liquefy. Do not use with incompatible plastics such as styrene hangers and boxes.
