# DIFUSO

TRADE MARK REG. U.S. PAT. OFF.

**INSECTICIDE**  
**CONTAINS PYRETHRUM**  
**Non-Toxic to Humans and Animals**  
**KILLS DDT RESISTANT FLIES**

DIFUSO is recommended for the rapid and effective control of exposed stages of many insect pests including:

Roaches, Silverfish, Crickets, Spiders, Scorpions, Ants, Flies, Mosquitoes, Ticks, Gnats, Wasps, Hornets, Clover Mites, Clothes moths, Carpet Beetles, Bedbugs, Fleas, Skippers, as well as stored grain pests such as granary weevil, rice weevil, confused flour beetle, rust red flour beetle, cadelle, saw-toothed grain mite, spider beetle, angoumois grain moth, Mediterranean flour moth, meal worm, cigarette beetle, drug store beetle, and grain mite.

**CAUTION: KEEP OUT OF REACH OF CHILDREN**  
**SEE BACK PANEL FOR OTHER CAUTIONS**

Net Wt.  
12-oz.

## DIFUSO

USA Reg. No. 162113

**DIFUSING** Remove protective cap. Hold container upright, aim away from you. Push button. Difuse 4-5 seconds to treat 1000 cubic feet of space. Increase dosage for hardy insects more difficult to kill.

**FLYING INSECTS** Aim spray upward and distribute throughout space being treated. It is not necessary to hit insect directly as DIFUSO will remain suspended for some time. For maximum effectiveness keep doors and windows closed for 15 minutes after difusing.

**CRAWLING INSECTS** Treat infested areas thoroughly and repeat as necessary, hitting as many insects as possible with the spray.

**FLIES, MOSQUITOES, GNATS, WASPS, HORNETS** Difuse as indicated for flying insects.

**ROACHES, ANTS, SILVERFISH, WATERBUGS** Treat areas where the insects are commonly found and direct spray behind baseboards, moldings, sinks and pipes, into cracks and crevices. Direct into locations where pests congregate and treat places where they enter.

**MOTHS, CARPET BEETLES** Spray articles to be protected, holding container 2 feet away, giving attention to seams and folds. Spray inside closets and trunks. For carpet beetles, treat floor covering and cracks in floor and around baseboards. Repeat in 30 days.

**BED BUGS** From two feet away, treat mattress with attention to tufts, seams, folds. Also spray bedboards and cracks and openings in furniture and room. Repeat often.

**CAUTION** Contents under pressure. Do not puncture or incinerate container. Do not store above 120 degrees F. Cover fishbowls while spraying.

**FLEAS, TICKS** Apply to infested areas thoroughly spraying all floors and floor coverings, and include treatment of sleeping quarters of pets. Repeat as necessary.

**CLOVER MITES, CRICKETS, SPIDERS, SCORPIONS** Thoroughly spray floors of storage areas, closets, corners, around pipes, and all areas where these pests are seen to crawl or congregate, spraying the insects directly whenever possible.

**SKIPPERS** To kill exposed stages of skippers and the stored grain pests named, spray the outside of packaged cereals or food, spraying shelves and other places where the pests are seen to alight, crawl and congregate **except** on exposed food. Avoid sources or reinfestation by destroying wormy flour, grain and cereals before applications. For flies, mosquitoes, and similar insects which enter through open doors, difusing for a few seconds at a time at frequent intervals is effective.

Active Ingredients  
Pyrethrins 30%  
Technical Piperonyl Butoxide\* 1.50%  
Petroleum Distillates 18.20%

Inert Ingredients 80.00%  
\*Equivalent to 1.50% Pyrethrins and 1.50% Piperonyl Butoxide.
