

Not Reviewed. Registrant claims to be in accordance with  
 Agency's Pesticide Product Guidance for Phase 2  
 (40 CFR 152.102) Ag to Inert Change in Status.

This product is an oil base solution for indoor and outdoor application as a residual type surface spray. Use is intended for control of such trailing insects as cockroaches, ants, spiders, silverfish, crickets, carpet beetles, earwigs, carpet beetles, brown dog ticks. **APPLICATION OF THIS PRODUCT IN FOOD AREAS AND COMMERCIAL FOOD HANDLING AND PROCESSING ESTABLISHMENTS OTHER THAN APPLIANCES AND CREVICE TREATMENT IS NOT RECOMMENDED.**

**DIRECTIONS FOR USE:**

Use in accordance with Federal Law to use this product only in accordance with its labeling.

**COMMERCIAL ESTABLISHMENTS:** Places other than food premises in which exposed food is held, stored, transported or served.

**RESTAURANTS LIMITED TO CREVICE AND CREVICE TREATMENT ONLY:** Includes areas for receiving, storage, preparation, cooking, cleaning, bottling, wrapping, packaging, and storage of food, water, storage and preparation of beverages, and other areas.

**APPLIANCES AND CREVICE TREATMENT:** In small amount apply to cracks and crevices using a pin stream of spray. Apply to joints between different elements of equipment, between equipment and floors, openings leading to cavities below panels or walls, equipment openings, conduits, motor housings, junction or control boxes where cockroaches, ants, silverfish, spiders and crickets hide. Prior to application deenergize electrical equipment. After application allow time for solvent to evaporate before starting motors or placing appliances in the "ON" position.

**CARE SHOULD BE TAKEN TO AVOID DEPOSITING THE PRODUCT INTO EXPOSED SURFACES OR INTRODUCING THE MATERIAL INTO THE AIR. AVOID CONTAMINATION OF FOOD OR FOOD PROCESSING SURFACES.**

**NON FOOD AREAS**

Includes garbage rooms, laboratories, floors, drains, entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after bottling or canning).

**ROACHES, ANTS, SILVERFISH, SPIDERS, CRICKETS:** Spray heavily into all cracks, around baseboards and other places where these insects hide. Also behind and beneath cabinets, sinks, etc. Spray other localized areas infested with these pests. Repeat treatment as required.

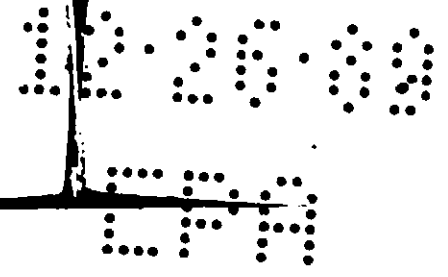

**CARPET BEETLES:** Spray edges of carpeting and under carpeting and rugs. Make localized application to the floor and baseboards. Spray directly into cracks, closets and infested areas of shelving. Repeat as necessary.

**BROWN DOG TICKS:** Thoroughly spray sleeping quarters, bedrooms, living areas, bathrooms, closets, windows and door frames, walls, ceiling. Application should be repeated as necessary. First application should be placed in areas of greatest infestation and repeat treatments applied with 7-10 day intervals.

**ANTS:** Difficult to control treatment of localized infestations outdoors areas, play woods and backyards. Spray around the trees if possible. Avoid spraying near edible plants. Thoroughly wet hills and runways, repeat applications as infestations warrant and as reinfestations occur.

**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to fish, aquatic invertebrates, and aquatic life stages of amphibians. Do not apply directly to water except as specified on this label. Do not contaminate water when disposing of equipment washwaters.

# ROACH AND INSECT SPRAY

**ACTIVE INGREDIENTS**

Methathion (O,O-Dimethyl dithiophosphate of diethyl mercaptosuccinate)	2.000%
Piperonyl Butoxide (technical)	0.125%
Pyrethrins	0.050%
Inert Ingredients	97.825%

\*Equivalent to 0.0% of butyl carbityl (16 propyl piperonyl ether) and to 0.025% of related compounds.

This product contains the toxic inert ingredients aromatic petroleum derivative and aliphatic petroleum hydrocarbons.
