Attention Mr. J. Stone

Subject 20 Mule Power Bathroom Cleaner
EPA Registration No. 1624-110
Amendment application of August 30, 1983
Resubmission of June 18, 1984

This amendment involves changes in inert ingredients and general updating of the label against current requirements. The revised draft label included in your submission of June 18, 1984 complies with the requirements of our letter of March 13, 1984.

A stamped copy of the draft label is enclosed for your records. In accordance with PR Notice 82-2 of June 18, 1982, you must submit five copies of the finished printed label to complete this action. Your finished printed labels must comply with the general labeling requirements to the extent applicable of section 162.10 of Title 40 of the Code of Federal Regulations.

In response to your question in resubmission of June 18, 1983 please note:

1. Efficacy data has been assigned accession no. 251123.
2. Volume V of V has been assigned accession no. 251587.
3. Formulator's Exemption Statement of September 23, 1983 is acceptable.
4. The file for this product does contain a confidential statement of formula dated September 23, 1983.

An examination of this file showed that you did not respond to our 3(c)(2)(B) letter of August 11, 1983 by submitting a Generic Data Exemption Statement for this product as you did for EPA Registration No. 1624-108 and 1624-109. A Generic Data Exemption Statement is enclosed for signature and return to us.

Sincerely,

A. E. Castillo

20 MULE POWER[®]
BATHROOM CLEANER

Disinfectant

Removes the toughest hard water deposits, soap scum and grease. Cleans, shines and disinfects surfaces in the kitchen, bathroom, etc. Excellent cleaner for fiberglass showers and tubs-stainless steel-grout-chrome-porcelain-enameled woodwork-vanity tops.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Use 20 MULE POWER[®] Bathroom Cleaner on tubs, showers, toilet seat and bowl rims, urinals, floors and other non-porous surfaces such as sinks, countertops, tile, porcelain and bedframes. For use in homes, schools, hospitals and public buildings. Kills the athlete's foot fungus in shower stalls, tubs, shower rooms, and swimming pool decks, etc.

FOR CLEANING: (1) Hold the spray container 6-8 inches from surface to be cleaned, and spray sufficient product to wet thoroughly.

(2) Wipe with damp cloth or sponge or rinse off. (3) On heavily soiled surfaces a second application may be necessary prior to disinfecting as directed below. Allow 2 to 5 minutes for spray to penetrate and use non-scratching pad or brush, then rinse. (4) If sprayed on varnish, shellac, water-based paint, marble, wallpaper or aluminum, rinse immediately.

FOR DISINFECTING: Allow a contact time of 10 minutes for complete disinfection of sinks, tubs, showers, toilet seats, toilet bowl

rims, urinals, floors, pool decks and other pre-cleaned, hard, non-porous surfaces. Spray the undiluted material on the surface until it is thoroughly wet. Allow a 10 minute contact time to kill Staph, Pseudomonas, Salmonella germs and athlete's foot fungus (Trichophyton mentagrophytes). Removes mildew and black mold on pre-cleaned surfaces and prevents regrowth when applied weekly.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Avoid contact with eyes. In case of contact immediately flush with plenty of water for at least 15 minutes. Avoid breathing spray mist. Get medical attention if irritation persists.

STORAGE AND DISPOSAL: Keep from heat or open flame. Do not reuse empty container. Wrap and put in trash.
