BORAX WP

For protection and preventative treatment of wood against decay fungi and wood-destroying insects.

Active ingredient:

Sodium Tetraborate Decahydrate. 100%

Na₂B₄O₇·10H₂O

[Boric Oxide (B₂O₃) equivalent 36.5%]

KEEP OUT OF REACH OF CHILDREN

DANGER

NOT FOR FOOD OR DRUG USE

EPA Reg. No. 1624-127

EPA Est. No. 1624-CA-2

INSTRUCTIONS FOR USE

General Information

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Borax WP is a water soluble inorganic borate salt for the protection and treatment of wood and wood products against decay fungi, wood boring beetles and termites.

Borax WP is recommended for interior and exterior wood components. The treatment of lumber is permanent providing the wood is not exposed to water for a prolonged period of time or used in contact with the ground. To extend the performance of this product in exterior or ground contact situations, a water repellent or fixative agent can be added to the treatment solution at the treatment plant.

Pressure process

Pressure treatment procedures must adhere to the standards of U.S. Borax and/or those of the American Wood Preservers Association. *Borax WP* is to be applied by vacuum pressure processes to achieve a target retention of 0.17 lb cuft B₂O₃ loading in the wood. Depending on wood species and moisture content, a *Borax WP* solution concentration of 1 to 6% W/W in water should be used to achieve this. If several species are being treated at once, choose the treating schedule for the most difficult to treat species.

Storage and disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a dry place. Do not store where children or animals may gain access.

Pesticide disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container disposal: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Notice:

Neither manufacturer nor seller shall be liable in respect to any injury or damages suffered by reason of the use of this product for a purpose not indicated by the label, or when used contrary to the directions or instructions hereon, nor with respect to breach of any warranty not expressly specified herein. Buyer accepts this material subject to these terms, and assumes full risk of usage and handling except when used or handled in accordance with this label.

PRECAUTIONARY STATEMENT

Hazards to humans and domestic animals

DANGER. Causes severe eye irritation. Do not get in eyes. Wear goggles or face shield when handling. Wash thoroughly after handling. Harmful if swallowed. Avoid contamination of food and feed.

First Aid

In case of emergency call toll free (1) 661 284 5200. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

If in eyes - Hold the eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

If swallowed - Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin - Take off contaminated clothing. Rinse the skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

If inhaled - Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

Environmental hazards

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authorities have been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
