KNOX CHEMICAL COMPANY

Division of American Home Products Corporation

FOOD PROCESSING, BEVERAGE, BAKERY, PACKAGING, AND WAREHOUSE FACILITIES:

This product kills and aids in control of flies, roaches and mosquitoes. Spray the facility periodically to help prevent roach infestation. Spray shelves and storage areas to kill the exposed stages of yellow meal moth worms and grain weevils. For kill and control of flying insects, flies, mosquitoes, and small flying moths, direct the spraying application toward the ceiling of the area being treated, and keep the area closed for 10 to 15 minutes after application. It is advisable to sweep up and destroy fallen insects. Repeat application as often as necessary.

To kill roaches and waterbugs, spray in cracks, crevices and places where roaches hide. Spray cabinets, shelves, pallets, in mouldings and woodwork, openings in walls and floors, and other places where roaches are found. Repeat treatment as often as necessary.

For the kill and control of carpet beetles (black buffalo moth beetle), spray inside of closets and other storage areas. Spray baseboards also, for carpet beetle control.

Apply at the rate of about 1 ounce per 1,000 cubic feet using equipment capable of delivering a mist, fog, or micron application: M-1601, Fogmaster, DEH, Dyna-Fog, Micro-Gen, Leco Mini II, PRO-ULV, or similar equipment.

NOTICE:

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the labeling when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to labeling instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller and buyer assumes the risk of any such use.
