

DO NOT EXPOSE TO OPEN FLAME
N. Y. F. D. PERMIT NO. -R578087
U. S. D. A. REG. NO. 1660-14

WARNING
CONTENTS UNDER PRESSURE.
Do not puncture. Do not use or store or expose near heat or open flame. Never throw container into fire or incinerator.

DIRECTIONS FOR USE

ANTS—As for Roaches, on ant trails if possible and directly into ant nests; on areas around door sills, window frames, water pipes, heat ducts, electrical outlets and baseboards. Repeat as necessary to maintain effective control.

ROACHES—Don't close up room. Never spray into air. Lift protective cap. Press trigger. Hold container so that spray is directed at the surface to be sprayed at a distance of 6 inches to 1 foot. All spraying to be on a spot basis. Spray until surface is wet usually at the rate of 1 to 2 feet per second. Spray directly into infested cracks, crevices, behind sinks, stove, refrigerator, etc. Make sure pilot light is off on stove or refrigerator. Let dry. Remove dishes from closet shelves, spray and let dry. Spray legs of table, let dry. This thorough application often is effective for considerable periods of time (2 to 6 weeks). Reapply if reinfestation due to migration or other causes occurs. The residual coating left by the above treatment is not easily swept away. Nevertheless thorough house-cleaning with soap and water removes film so reapply after such cleaning.

Contents Net Wt. 13 Ozs., 14.95 Fl. Ozs.
Store in a cool place below 125° F.

SEE DIRECTIONS AND OTHER CAUTIONS ON SIDE PANELS

SILVERFISH, SPIDERS, WATERBUGS—Spray directly on insects if possible or as for Roaches. Also on exposed pipes.

BROWN DOG TICKS IN PREMISES—as for Roaches, also repeated treatments as necessary depending on source and intensity of infestation around baseboards, window and door frames, localized areas of floors and floor coverings, wall cracks and sleeping quarters of pets. Replace fresh bedding in animal quarters following treatment. Do not treat pets or other animals directly.

CARPET BEETLES IN PREMISES—Localize applications to floor and baseboards, in cracks and under carpets where insects are found. Likewise floors, baseboards and shelves of closets.

ACTIVE INGREDIENTS:

Petroleum Distillates	72.913%
*Malathion	2.5%
**Technical Chlordane	1.5%
Pyrethrins	0.025%
***Technical Piperonyl Butoxide	0.062%

INERT INGREDIENTS 23.0%

*0, 0, dimethyl dithiophosphate of diethyl mercaptosuccinate.
**Octachloro 4, 7 methanotetrahydroindane 0.9% and other related compounds 0.6%
***Equivalent to 0.05% (butyl carbonyl) (6-propyl piperonyl) ether and 0.012% of related compounds

CAUTION: Avoid inhalation, prolonged or repeated contact with skin, and contamination of foodstuffs. Do not spray on humans, pets, or around birds or fish. If liquid is accidentally sprayed on skin wash off with soap and water. Keep out of reach of children. Harmful if swallowed. Wash thoroughly after using.

NOTE TO PHYSICIAN: Malathion upon repeated, careless, prolonged use may cause cholinesterinase inhibition. Atropine is antidotal.
