

SUPER DRO

CAUTION:

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. Provide adequate ventilation of area being treated. Do not allow children in treated areas until surfaces are dry. Avoid contamination of food stuffs. Do not spray on humans, pets or around birds or fish. In case of skin contact wash off with soap and water. Wash thoroughly after using. If contacted in eyes flush contaminated eyes with plenty of water. Do not allow pets in treated areas until surfaces are dry. If illness occurs call a doctor. NOTE TO PHYSICIAN: ATROPINE SULPHATE IS ANTIDOTAL.

Do not use in edible products areas of food processing plants, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Spray on surfaces only. Do not use as a space spray. Do not apply to rugs, carpets, draperies, wallpaper, or similar materials that may stain, avoid excessive wetting of plastic, rubber and asphalt surfaces such as tiles and floor coverings. Store in a cool place below 120°F.

FLAMMABLE

Contents under pressure. Do not use near fire, sparks or flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not smoke when spraying.

The spray from this container has very high toxicant strength. When dry, the coating left will give effective control for long periods of time.

SUPER DRO

KILLS ROACHES \$5.00

ANTS SILVERFISH, ANTS, WATERBUGS BROWN DOG TICKS, SPIDERS

ACTIVE INGREDIENTS:

Pyrethrins	0.10%
*Piperonyl butoxide, technical	0.20%
** N-octyl bicycloheptene dicarboximide	0.30%
**Chloropyrifos / O, O-diethyl O-(3, 5, 6-trichloro-2-pyridyl) phosphorothioate	0.50%
Aromatic petroleum distillate	0.29%
Petroleum distillate	95.58%
INERT INGREDIENTS:	3.03%

*Equivalent to .16% [butylcarbityl] [6-propylpiperonyl] ether and .04½ related compounds.

*** MGK 264 INSECTICIDE SYNERGIST ■ **U.S. Pat. No. 3,244,58

KEEP OUT OF THE REACH OF CHILDREN CAUTION:

See directions and other cautions on side panels.

FLAMMABLE: KEEP FROM HEAT OR FLAME.
DO NOT USE AS A SPACE SPRAY.
CONTENTS UNDER PRESSURE.

Chemical Specialties Co., Inc., Brooklyn, N.Y. 11
CONTENTS 1 LB. (16 oz. Avoir.)

DIRECTIONS FOR USE

ROACHES: Don't close up room. Never spray into air. Lift protective cap. Press trigger. Hold container so that spray is directed at the surface to be sprayed at a distance of 6 inches to 1 foot. All spraying to be on a spot basis. Spray until surface is wet usually at the rate of 1 to 2 feet per second. Spray directly into infested cracks, crevices, behind sinks, stove, refrigerator. Make sure pilot light is off on stove or refrigerator. Let dry. This thorough application often is effective for considerable periods of time (up to 2 weeks). Reapply if reinfestation due to migration or other causes occurs. The residual coating left by the above treatment is not easily swept away. Nevertheless thorough housecleaning with soap and water removes film, so reapply after such cleaning.

ANTS: As for ROACHES: on ant trails if possible and directly into ant nests: on areas around door sills, window frames, water pipes, heat ducts, electrical outlets and baseboards. Repeat as necessary to maintain effective control. When used outdoors, do not spray vegetation.

WATERBUGS - SILVERFISH, SPIDERS. Spray directly on insects if possible or as for ROACHES. Also on exposed pipes.

BROWN DOG TICKS IN PREMISES: As for ROACHES, also repeated treatments as necessary depending on source and intensity of infestation around baseboards, window and door frames, localized areas of floors and floor coverings, wall cracks and sleeping quarters of pets. Replace fresh bedding in animal quarters following treatment. Do not treat pets or other animals.
